Discussion re procedural matters	

12:00 1 Wednesday, 23rd June 2021 2 (Transcript times are British Summer Time) 3 (12.00 pm) 4 THE PRESIDENT: Yes, let's see if there are any matters of 5 housekeeping. 6 MR HILL: There's one matter from my side, Mr President. 7 THE PRESIDENT: Yes, Mr Hill. 8 MR HILL: There was a request yesterday from Mr Cowley for 9 metadata in relation to three documents. That was, if 10 you like, put reciprocally, because we had asked for 11 metadata in relation to one document. 12 THE PRESIDENT: Yes. 13 MR HILL: We have provided the metadata in relation to three documents. That was, if 16 other one is in hard copy so there is no metadata, and 16 other one is in hard copy so there is no metadata, and 16 other one is in hard copy so there is no metadata, and 17 we provided that a little while ago to both ICSID, so it 18 should get to the Tribunal, and also to Mr Cowley. So 19 that's just the housekeeping. So we obviously await his 20 version as soon as possible. One point that emerges 21 THE PRESIDENT: Excuse me, just before I'm very ignorant. 22 I'm not quite sure what metadata is. I imagine it's the 23 data that tells you the genesis of the electronic 24 documents. Just to be clear, this document is an NRD document, it's talking about dam walls being raised to retain suspended material that is introduced through mining activities. So it's dealing with continuing mining activities, isn't it? A. You need to go visit. It's illegal mining activities which is increasing the suspension of silt, not legal mining activities. We Q. Can you go to page 83 of this document? A. We were not mining there and it would be irresponsible to do it. Q. At page 83 of this document, we have production on the Nemba site there, and if you go on to page 85, still in production we have production aggregated for Rutsiro,	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23 24	2334	going to be harmed or killed. It was a political rally. He was not talking about Nyatubindi he was not talking about Rutsiro, which is where he claimed he was, it was Nyatubindi which is an entirely different place, and he went so far as to threaten to take away all of our concessions if we didn't clean up the Belgian works within, I forget what he said, a month or two months. Q. We've looked at exactly what he said in his letter and we can look at a fair characterisation in his letter. Now, I'm going to move on. We were dealing yesterday evening with the Benzinge story in August 2012. Can we go to bundle R-231. And this is your letter complaining on 3rd August to the RDB, and can FTI go on in this letter, please. A bit more. Keep going. My apologies, one back, FTI, please. Thank you. So you're complaining about RDB being taken in by Mr Benzinge, and you say, fourth paragraph: "I am sorry to tell you this, but what Ben Benzinge has argued to you and your staff is breathtaking in its absurdity. It is astounding that your staff believes him, or, indeed, that they think that it is their job to make determinations on issues where the Rwanda courts have already made their decision. The facts are

To my knowledge there may be some illegals, I mean, this is not a small area, which were stirring up the area and thereby creating silt. Our work there was remedial. We were, at this time, before 2010 and during our time, this is why we brought over the team of environmental management from Olomouc University, and that team was specifically focused on environmental works. There was no mining going on. Q. Your version yesterday was that you did know, on your case, that some member of staff had been threatened, but you were choosing not to mention it in your letter to the RDB and your version of events today is that you didn't know. Which is true? A. You're intentionally mixing up the timeline for purposes of not getting the facts right. This letter was written before we knew how Ben Benzinge had persuaded them, or threatened them in this case, to remove us from the commercial registrar 	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23	holding company to be Mr Roderick Marshall. No Q. You were operating without a licence? A. It's something political. All other concession holders

- 12:40 1 licences. We were the only one at this point who was
 - 2 not actively in negotiations because they wouldn't, and
 - 3 we don't know why to this day. We got this letter in
 - 4 the middle of that saying: okay, you're extended for two
 - 5 weeks.
 - 6 Q. Now, I would like you just to focus, rather than making
 - 7 speeches, Mr Marshall, I want you to answer my question.
 - 8 A. (Overspeaking) information.
 - 9 Q. Just please focus on my questions and answer them.
 - The reason you needed to have a letter of this kind
 - is that your last licence extension had expired, and for
 - you not to be an unlicensed operator, you needed to be
 - 13 given a licence extension; correct?
 - 14 A. Our licence was an ongoing -- for all concession
 - 15 holders, we were all treated the same in this respect,
 - that all of them were deemed to be continuing
 - 17 licences ---
 - 18 Q. No, it's not a question of deemed to be continuing.
 - 19 You've seen the correspondence.
 - 20 A. There are specific -- there are specific rights and
 - 21 responsibilities of a concession holder. At all times
 - we were treated to have those rights and
 - 23 responsibilities as a concession holder. It never
 - 24 changed.
 - 25 Q. We've seen the correspondence where there was a previous

- 12:42 1 I just want to make that clear.
 - Now, by this stage, you had not made any application
 - 3 for a long-term licence, had you?
 - 4 A. Yes, we had.
 - 5 Q. Subject to your point about your argument that
 - 6 the November 2010 application counted?
 - 7 A. That was deemed an application for a long-term licence
 - 8 according to the staff at the licensing and supervision
 - 9 division
 - 10 Q. Now let's keep that page on the screen, if we can, and
 - 11 look at paragraph 34 of your witness statement. You say
 - 12 at paragraph 34:
 - "On September 13, 2012, Minister Kamanzi wrote to
 - 14 NRD granting another extension of the NRD mining
 - licences, stating that the long term contracts 'will be
 - 16 negotiated'."
 - 17 Could you just show me where in the letter from
 - Mr Kamanzi he says that the long-term contracts will be
 - 19 negotiated?
 - 20 A. It says "new contracts", referring to long-term
 - 21 contracts, "that will be negotiated".
 - 22 Q. Why do you say that's referring to long-term contracts?
 - 23 A. Because everybody was being treated the same.
 - 24 Q. You had no basis for thinking long-term contracts were
 - 25 being negotiated because all you had applied for was

Page 31

- 12:41 1 licence extension. You needed to be a licensed
 - 2 operator, and this licence was granted -- here we have
 - another licence extension granted until October 2012;
 - 4 yes?
 - 5 A. Yes. So a two-week extension.
 - 6 Q. And it's making sure you are a licensed operator over
 - 7 until October 2012, otherwise you would not be
 - 8 a licensed operator.
 - 9 A. Up to October 2012.
 - 10 Q. And there's nothing in here promising that a long-term
 - licence is going to result, is there?
 - 12 A. No. All concession holders at this time in 2012 were in
 - 13 active negotiations for the terms and conditions of that
 - long-term licence. We never had that opportunity.
 - 15 Q. So I think you're agreeing with me, there's nothing in
 - this letter indicating that a long-term licence is going
 - 17 to result, is there?
 - 18 A. There's nothing which contradicts it, and there are lots
 - 19 of other forms of communication which you've decided to
 - 20 take from our -- your client has decided to take from
 - 21 our offices.
 - 22 Q. Well, you keep saying that, and just, I should make
 - clear that's not accepted, that Rwanda has removed
 - 24 anything from your offices, and it's also not accepted
 - 25 that you do not have access to vast amounts of material.
 - Page 30

- 12:44 1 a five-year contract by this time; is that not true?
 - 2 A. No
 - 3 Q. Now, that licence extension has expired, as we see here,
 - 4 in October 2012, and it's right to say that at no point
 - 5 after that did you have any actual extensions to your
 - 6 licence granted by the Minister, or anyone; correct?
 - 7 A. I don't recall.
 - 8 Q. Now, we are still in September 2012. Mr Sindayigaya
 - 9 left in September 2012, didn't he?
 - 10 A. He was fired in -- after a criminal investigation
 - in August or September 2012.
 - 12 Q. Well, the accurate position is that he left in
 - circumstances where he had not been paid for some time
 - and had had enough; correct?
 - 15 A. That is entirely inaccurate.
 - 16 Q. And at that point, you made a number of serious but
 - 17 unfounded allegations against Mr Sindayigaya, didn't
 - 18 you?
 - 19 A. No, we had a detailed criminal investigation, the police
 - came, they interviewed him, they interviewed others.
 - 21 They agreed with what had happened and money was
 - 22 missing. In fact --
 - 23 Q. Let's go to bundle C-182. This is a purported letter
 - from you to the police in September 2012. Now, you
 - 25 never actually sent this letter, did you?

- 12:56 1 Q. And if you had sent this letter to the police, which
 - I don't accept, you wouldn't have any basis, would you,
 - 3 for making a complaint to the police, for example, about
 - 4 Mr Sindayigaya's role in the situation regarding
 - 5 accidents of workers?
 - 6 A. I don't recall what the issue is or what it was
 - 7 referring to when it says "Regarding accident of
 - 8 workers", so I can't help you on that.
 - 9 Q. It's just an example, isn't it, Mr Marshall, of how you
 - 10 make unfounded allegations against anyone who you
 - 11 disagree with; correct?
 - 12 A. That's slanderous and outrageous and really not helpful
 - in trying to elicit truth in this process.
 - 14 Q. Let's move on.
 - 15 THE PRESIDENT: Mr Hill.
 - 16 MR HILL: Yes.
 - 17 THE PRESIDENT: It's not clear to me -- and I doubt if it's
 - clear to Mr Marshall -- whether you are suggesting that
 - this letter was not typed on 20th September 2012 but has
 - been produced much more recently for the purpose of this
 - 21 arbitration.
 - 22 MR HILL: Mr Marshall, would you like to give -- you've
 - 23 heard the President's question. Would you like to say
 - your understanding of whether this letter has been typed
 - 25 more recently, or not?

- 12:59 1 Whether it was typed -- I'm sorry, I don't know what
 - 2 the date on it is, I can't see it.
 - 3 THE PRESIDENT: Well, the date is 20th September.
 - 4 A. Yes, if this was a draft and we decided not to send it,
 - 5 we sent a different version, I don't know.
 - 6 20th September.
 - 7 But I would refer you to Zuzana Mruskovicova about
 - 8 this. This would have been, you know, her
 - 9 investigation, her preparation of these materials.
 - 10 So this was certainly a draft. Whether it was
 - 11 actually delivered in this form or a different form,
 - 12 I couldn't be sure unless I had the copy which had the
 - 13 stamp on it
 - 14 THE PRESIDENT: Well, I understand your answer that this is
 - 15 a contemporaneous document --
 - 16 A. Yes.
 - 17 THE PRESIDENT: -- produced with the date that it bears.
 - 18 A. Yes. It's certainly contemporaneous.
 - 19 THE PRESIDENT: Thank you, Mr Hill.
 - 20 MR HILL: I'm going to move on now to a different
 - 21 topic. September 2012, Minister Kamanzi suspended all
 - 22 mining activities in the Sebeya catchment in the
 - Western Provinces; correct?
 - 24 A. Am I looking at --
 - 25 Q. Do you recall that? I hope it isn't contentious, I just

Page 43

- 12:58 1 A. You mean is it a fraudulent document?
 - 2 Q. Is it a late document?
 - 3 A. It's certainly not a fraudulent document, no, we don't
 - 4 do that
 - 5 Q. Well, you have presented it as something that was sent
 - 6 to the Kigali police, and that's not true, is it?
 - 7 A. As far as I know it would have been sent to the police,
 - 8 but I refer you to Zuzana Mruskovicova who was handling
 - 9 it. This would be unlikely to be a copy that would have
 - 10 been confirmed by the police. As I say, when we
 - delivered letters to the police or any ministry, we
 - would take a copy, a signed copy, but photocopy, and
 - 13 take it to wherever we were delivering it and have them
 - 14 put the stamp on it to indicate that it had been
 - 15 received.
 - 16 So this is not that copy. I don't know what this
 - 17 copy is, it may be --
 - 18 THE PRESIDENT: Mr Marshall, is it your signature on that
 - 19 letter?
 - 20 A. Yes.
 - 21 THE PRESIDENT: And was that letter typed on the day that --
 - of the date it bears, or has it been typed more
 - 23 recently?
 - 24 A. It certainly was not in preparation -- if you mean in
 - preparation for these hearings, 100% not true.
 - Page 42

- 13:00 1 want to help everyone on the timeline.
 - 2 So September 2012 was when Minister Kamanzi suspended
 - 3 mining activities in the Sebeya catchment?
 - 4 A. I don't know what month it was. He did suspend them in
 - 5 2012, yes.
 - 6 Q. Yes. And that was as a result of concerns about
 - 7 environmental damage, as well as illegal mining; yes?
 - 8 A. That's what his letter says, as I recall.
 - 9 Q. Now, by the end of 2012, where one gets to is that by
 - that stage your licences have expired, haven't they,
 - because the October extension had now expired; correct?
 - 12 A. They're all being treated the same and they're all being
 - 13 deemed to be still large-scale mining concession
 - 14 holders --
 - 15 Q. And by that stage --
 - 16 A. -- (overspeaking) statutes.
 - 17 Q. -- by that stage, end of October, your November 2010
 - application had not been accepted; correct?
 - 19 A. Yes, it had been accepted. We had not been told that it20 had been refused.
 - 21 Q. Well, it was clear, I would suggest, from
 - 22 your August 2011 letter you received from Mr Kamanzi
 - what the position was; correct?
 - 24 A. No. No, because we -- at that point we were negotiating
 - 25 the language of the long-term concession with the

---	-------	---	----	----------------	-------------	------------------

- 2 Q. One of the things this shows is that no further material
- 3 exploratory research or calculating of reserves had been
- 4 done since you acquired the company at the end of 2010,
- 5 even though we're now in 2013; correct?
- 6 A. No.
- 7 Q. Because all you're doing is giving the same programme --
- 8 A. You're asking me why the material wasn't included, and
- 9 that would have been a question for them: do you want
- this other information included? We had a whole series
- of teams of geologists, consulting geologists coming
- from Europe, who were performing a number of tests in
- opening up additional deposit areas for exploitation.
- 14 Nobody ever asked us for that. This is at their
- 15 instruction.
- 16 Q. Mr Marshall, the other thing this shows is that you must
- 17 have known that this was not a viable application for
- a long-term licence because this is showing exactly the
- 19 kind of thing that should have been done in the
- 20 four-year period and hadn't been done; correct?
- 21 A. No, and I have to refer you back to this whole
- 22 principle, you know: they asked us to come, please take
- a risk, please invest money, we know that this is
- 24 nothing like what the ordinary arrangement is in the
- 25 mining industry, do this as an indulgence to us, you

- 13:21 1 although this was in fact the first application that it
 - 2 had made for a 30-year concession at all, because the
 - 3 application made in November 2010 was for new five-year
 - 4 licences. The January 2013 application was entirely
 - 5 inadequate -- it contained none of the detail that would
 - 6 have been required even for short term licences, let
 - 7 alone the 30-year licences now being requested."
 - 8 And that's a fair and reasonable view and summary,
 - 9 isn't it?
 - 10 A. Absolutely outrageous and completely inconsistent with
 - 11 everybody else we spoke to at the Ministry.
 - 12 Q. Well, Dr Biryabarema, as you know, was one of the people
 - who would have been evaluating this?
 - 14 A. He was also under criminal investigation for most of the
 - period we were there.
 - 16 Q. Mr Marshall, this is yet another extravagant claim from
 - 17 you, isn't it?
 - 18 A. No. We spent many meetings discussing Dr Michael's
 - 19 corruption with internal intelligence, indeed, external
 - 20 intelligence.
 - 21 Q. Until you got into the witness box you have never
 - suggested that Dr Michael Biryabarema was corrupt in any
 - way, have you?
 - 24 A. Yes, I did. In fact, I think I told you that he was
 - being bribed by Anthony Ehlers or Anthony Ehlers had

disclosed to us that (overspeaking) --

- 13:19 1 will be given a commercially reasonable long-term

 - 3 for what that commercially reasonable long-term licence
 - 4 agreement would say; we were not.
 - 5 Q. And this was work that needed to be done under Article 2
 - 6 of the contract, and you were told in August that it
 - 7 hadn't been done, August 2011 hadn't been done?
 - 8 A. You're making stuff up now. We were told to put this
 - 9 document together in this format. They did not ask for
 - $10\,$ $\,$ $\,$ the other geological research which was ongoing by our
 - European, Czech and Slovak geologists and their team.
 - 12 Q. Can we go back to the bottom of --
 - 13 A. We had more ex-pat geologists working in Rwanda than any
 - 14 other company.
 - 15 Q. Can we go back to the bottom of page 3. We have
 - 16 "Production highlights" and you give production figures
 - for 2007 to 2011, and it's right to say, isn't it, that
 - 18 the reason you don't give production figures for 2012 is
 - that they were so low under your watch; correct?
 - 20 A. I don't know that that would have been the reason.
 - 21 I don't know why it's not here.
 - 22 Q. Can we go to Dr Biryabarema's witness statement at

Page 58

- paragraph 15. He says:
- "On 30 January 2013, NRD made what it called
- an updated application for a 30-year concession,

- 10 Q. It's not, and the reason it's not is because you have
- just made that up, speaking from the witness stand?
- 12 A. No, that's not true. Talk to internal intelligence,
- talk to external intelligence. I suspected that he was
- 14 going to be gone before we were.
- 15 Q. Let's look at Mr Imena's witness statement at
- paragraph 23.
- 17 A. The military people that we were working for just asked
- us to be patient, do nothing precipitous, but he was
- being investigated for corruption. We fully expected
- 20 him to be removed from his position. He's known
- 21 throughout the community for corruption.
- Q. Let's look at paragraph 23. This is Mr Imena's reactionto your application:
- "That draft agreement had been sent with what was

It was tabled that no action was taken, I interpreted that to mean that okay, this meant there was going to be another round of negotiations, so I expected that template, that agreed-upon language to be the basis on which we would continue and find terms that were acceptable, since obviously that was not acceptable but I had not been told why or what provisions were unacceptable. So to me this was already understood, we were working from this template. If they were going to bring in the new agreement, then we would have taken a look at it and started that negotiation. In fact, we did get a new draft agreement, which was substantially different from the one that had been submitted at the end of 2011. Q. He says: "Reference is made to your letter dated 6th February 2013, requesting for the resumption of mining activities in Rutsiro, Sebeya and Giciye Concessions of NRD and also have the opportunity to remedy the harm been done in those concessions by illegal miners. Following our conversation with you on [6 February 2013] we recognise and appreciate your suggestions to curb illegal mining practices by using demobilised soldiers to provide security for these concessions. As you informed us this group has proved effective in Nemba, another NRD controlled concession. 	3	MR HILL: Mr Marshall, can you be given C-057. This is a letter from the RDB to NRD setting out its position in	3	A. As far as I know, all large-scale mining concession holders were being brought in for long-term licence
	4	respect of the licences, and the RDB note in the first	4	contracts, and all of them are negotiating what both
	5	-	5	parties would hopefully find to be a commercially

Just pausing there, you knew that there was no agreed-upon long-term licence and you knew that you were not being invited to discuss a long-term licence, didn't

14:25 A. No. As you said before, this is the plain language. We expected to be negotiating for a long-term licence, similarly to how we had been negotiating it with Dominique Bidega in 2011. Q. So this is a deliberate, I would suggest, misinterpretation of a letter which you have copied, amongst other things, amongst other people, to the US Ambassador; yes? A. That's the double question. Can I answer the first one first, please? Q. Yes, please. A. What we understood was that we were being finally invited to negotiate commercially reasonable long-term licences. We hadn't had anybody to talk to about the terms of that licence. From our perspective, we had fully performed. We had negotiated the agreement once, it had been sent to the cabinet, tabled, and it hadn't gone ahead. Now we were given a second opportunity to be able to negotiate what the language of that long-term licence would be Q. You wanted to give a full yes, carry on? A. What was your second question? Q. Yes, you sent it to and I suggested, and it's the same suggestion I'm making again now, you sent this letter to a number of other recipients in order to give	14:28 1 A. All documents in Rwanda are delivered by hand. There's really no meaningful mail service. So, for example, the stamp there next to the addressee, I don't see others, the Rwanda Natural Resources Authority, that meant that we took it to them, and our copy we were keeping, we got them to stamp it as evidence that they had received it. 7 THE PRESIDENT: Thank you. I understand. 8 MR HILL: Thank you, Mr President. I'm just seeing if I can skip the next thing just to try and move things along a bit. If you just give me one moment. 11 A. I would add, Mr President, two additional administrative practices in Rwanda is, one, that all documents, all received letters are entered into a logbook, so when they stamp it they also enter it into their logbook, and every letter that they send out, where the minister sends out a letter, for example, they also enter that into a logbook, so it's like the US Army, where they keep a record of every communication, and then there's some dispute about whether it's seven days, or seven business days, you have to respond to that letter on both sides. 12 THE PRESIDENT: Thank you. That's the practice. 23 A. That's the practice, sir. 24 MR HILL: Yes. Can you now go to C-159. This is a meeting of the RDB that you attended, and you see at the
14:26 1 a false impression that there was some agreement of 2 a long-term licence, didn't you? 3 A. This is a very small community. Everybody knew 4 everything about what was going on. If the Rwandan 5 Government if these people in the Rwandan Government 6 were jockeying to be able to say: okay, we did have 7 an agreement, we're now going to breach that agreement 8 by offering you something different than what we 9 promised, then everybody needs to know what that process 10 is. We were trying to play with all the cards face-up. 11 That was the only reason. 12 THE PRESIDENT: Could I just intervene to ask a question 13 which has been puzzling me from the outset. When we 14 look at this letter it has, by the Ministry of Natural 15 Resources, the Rwanda Development Board, and the 16 American Embassy. How is it that one document bears 17 these three stamps of receipt? 18 A. Ordinarily what we do is that it's an administrative 19 practice in Rwanda where you deliver the original to the 20 named recipient, and when you're delivering copies, you 21 get a you go to their office and they give you 22 a stamp on your copy, so that you have a record of 23 everywhere you delivered it. 24 THE PRESIDENT: So all these documents were delivered by 25 hand in hard copy; is that right? Page 82	14:29 1 beginning of the note of the meeting it says, second sentence: 3 "Ms Rusagara informed NRD that it had not received any comments from the Company on the Mining Agreement and the due diligence questions that it had submitted to NRD on 4th April 2013 Ms Rusagara noted that in the absence of comments from NRD, the meeting could be used to focus on broader issues [relating] to the Agreement and due diligence questions, or addressing clarifications in connection with that Agreement." 11 So the RDB went into this meeting wanting to negotiate or to discuss the agreement which you had not yet commented on, and that was the five-year Nemba agreement; correct? 15 A. I don't know what the draft was. I don't recall. 16 Q. And what happened at this meeting is you weren't ready to discuss that draft, and I don't want to go to the detail of the minute, but it's clear from the minute that you raised a number of complaints, and it was agreed that there would be a meeting with Mr Imena, which took place subsequently; do you recall that? 22 A. I recall that there was no meeting with Dr Imena subsequently, that this was a preliminary meeting for purposes of negotiating a long-term contract. That was my recollection.

- 3 A. Other mining concession holders had much more difficulty
- 4 with illegal mining than we did. Rutongo was among the 4 5
 - biggest complainers about that. 5
 - O. Let's look at the next item:
 - "Grant to NRD the long-term 30-year mining concession provided by Rwandan law and promised under
 - - the 2006 exploration and exploitation Agreement, which
- 10 10 grant has been repeatedly delayed and manipulated by
- 11 RNRA. NRD has fully performed under the 2006 Agreement
- 12 and, in accordance with that Agreement, NRD has
- 13 confirmed that it is satisfied by its exploration
- 14 results in some concessions and, in some areas within
- 15 a concession, wishes to continue exploration."
- 16 Now, let's take this in stages. There's no 30-year
- 17 licence promised under the 2006 contract, is there, that
- 18 was a distortion of the contract; correct?
- 19 A. No, at all times we were the statutorily defined
- 20 long-term large-scale mining concession holder, which is
- 21 a defined term under Rwanda statute, and there it
- 22 specifies as the long-term holder it is for a mandatory
- 23 30 years, there's no lesser period. And the Rwanda
- 24 Government always was making the argument: we would like
- 25 to be sure of what the terms of the so-called

Page 90

- 14:40 1 was working on.

 - 3 responsibility and authority were against that position,
 - but you're relying, are you, on conversations with
 - people like Mr Bidega who joined your organisation; yes?
 - A. I'm -- it's an ongoing negotiation. We knew what people
 - 7 thought. We knew that they were investigating
 - 8 corruption. We believed Dr Michael and Minister Evode
 - were going to be removed almost immediately. In fact,
 - Evode was removed, but six months after we left the
 - 11 country.
 - 12 Q. And this was a wholly distorted position --
 - 13
 - 14 Q. -- that you were presenting to the Minister and copying
 - 15 to the US Ambassador so that he himself --
 - 16 A. The US Ambassador --
 - Q. Just let me finish -- so that he himself would have 17
 - a false impression of what was going on; that is fair, 18
 - 19 isn't it?

24

- 20 A. No. He has his own sources of information, he is fully
- part of the community, everybody in the US Embassy is 21
- 22 fully part of the community. We played with all of the
- 23 cards facing up. They knew what was good, what was bad,
- what was happening day-by-day, and they always, always 25 provided a representative from the US Embassy to go with

We could never find out any information about who they were or what they sued for. As far as I know, we never had a lawsuit for unlawful dismissal, except in those cases where there was a perfunctory lawsuit where we had fired someone for theft or embezzlement, like Aime, for example, he may have brought a claim. As far as I know, those would have been dismissed, although the courts are very reluctant not to give some kind of damages, even as nominal damages (overspeaking) Q. Mr Marshall, we know there were lots of court cases A unfair dismissal claim. Q. Mr Marshall, we know there are lots of court cases and judgments, including judgment for unfair dismissal A. No, it's a gross misrepresentation. No, it's not true. The bailiff came to us with a list of so-called employees from maybe the west, we don't know where, we couldn't we never get wait a second. He would never give us a judgment, he would never give us a court document. We don't know who they were. Q. The more accurate position is that the bailiff came and he had judgments that he was enforcing? A. If he did, he wasn't showing them. That's my point. Q. We'll come back to that. Can we go back to paragraph 16? Page 97	14:49 1 2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23 24 25	 Q. We know it's accurate, Mr Marshall, because it coincides with the documents you have produced, which show the company which are the company's documents which show an absence of investment in the period of NRD A. That's not true. Q and we've been through that material. A. That's not true. You bifurcated the proceedings, you did not want that information until the second part. With regard to this specifically, "I believed this involved industrialising mining", he knows well that industrialising mining in Rwanda is interpreted to mean giving more and more assistance and support to artisan miners and their mining activities; it's not to create massive open-pit mining operations, and it's a misrepresentation to say that we were happy to continue buying minerals from artisan miners. That's what every mining company does. Everybody no, there are no full-time miners. There are full-time support staff, but there are no full-time miners. Everybody buys from the miners and sells that production to the comptoirs or traders. Q. Now let's look at page 18 of his statement, dealing with Rutsiro. A. Well, you go through a sentence excuse me, just to make an observation
14:48 1 2 3 4 5 6 7 8 9 10 11 12 13 14 15 16	A. All of this is fraudulent and I would ask you to address these issues to Ms Mruskovicova. Q. Back to paragraph 16: "Although I had been hired on the understanding that I would assist NRD in its production strategies and security, which I believed involved industrialising its operations, none of the sort happened as Mr Marshall and Ms Mruskovicova were not willing to invest any money in the company. It quickly became apparent to me that NRD was happy to continue buying minerals from artisanal miners and reselling those minerals for a profit rather than investing in and developing the company's operations. During the time that I worked for the company, it made very little capital investment. It did not make any investment into industrialising its operations".	14:50 1 2 3 4 5 6 7 8 9 10 11 12 13 14 15 16	 Q. No, I'm not allowing you to make an observation, Mr Marshall, you have answered my question. Please go to paragraph 18 A. Can I interject a comment, please? You read a paragraph and you say "That's all true, isn't it", and you don't let me respond to it item by item, and that's not very fair. Q. I've given you a long opportunity very many opportunities for long answers, Mr Marshall, I need to move on. A. You can't you're reading six or eight sentences and you don't give me an opportunity to answer each of those allegations. Q. Let's look at paragraph 18, Mr Marshall. He deals there with the Rutsiro plant and what he says in the middle of the paragraph is:

17 "That plant at Rutsiro was not operational and I was 18 told by employees that had worked for NRD when it was 19 owned by HC Starck, that the plant had never worked and

could not process any minerals because it had several

21 missing parts."

20

22 He's dealing here with 2013 now, and it's right to 23 say, isn't it, that that plant was not operational?

24 A. The plant was absolutely operational. It's a farcical

25 statement, it's so bluntly untrue. Not only were we

groups. All of this is creative writing, at best.

A. No, it is not. He was a full-time employee of the

Directorate of Military Intelligence, he was giving us

assistance on security matters. It was represented to

me by a mutual friend that he could help because he

I'm talking about the meeting on October 30th. It seems to be a hodgepodge of a number of meetings. The October 30th meeting, we were completely consumed with the OECD delegation coming to Kigali and what the message was on the Rwanda side, and us as the mining 	15:06 1 2 3 4 5 6 7 8 9 10 11 12 13	ever did that. 15:13 1 A. Yes.

- 2 Q. And if you go to C-144, there's a letter here from you
- to the Arbitration Centre in Kigali, addressed to the
- 4 chairman of the Arbitration Centre, in which you sought
- 5 to object to the arbitration hearing by this letter
- which you sent only the day before the hearing; correct?
- 7 A. That was the process.
- 8 Q. You had been on notice of the hearing for some time
- 9 before --
- 10 A. Our lawyer, Alloys Mutabingwa was giving us instruction
- on what this letter should say. As far as I can recall
- it, he actually drafted this letter and it was submitted
- 13 timely
- 14 Q. You had been on notice of the hearing for some time
- before that, hadn't you?
- 16 A. Yes.
- 17 Q. And having sent this letter to the chairman of the
- 18 Arbitration Centre, you didn't then attend the
- 19 arbitration hearing, did you?
- 20 A. That was the process. You submitted an objection the
- $21\,$ day before the hearing, under their law, and you do not
- 22 appear.
- 23 Q. You also -- NRD had been aware of the arbitration itself
- from an early stage, hadn't you, and you had
- 25 participated in court proceedings relating to the

Page 117

- 15:15 1 I had been told, said: no, there will be an arbitration.
 - 2 Fine, then we went back and objected as to what
 - 3 constituted -- who the arbitrators should be.
 - 4 Q. Now, if we go to the award itself, we have that in
 - 5 R-013.
 - 6 A. So, just to be clear, we objected to Nelly, we were
 - 7 informed that we should not attend, and then Nelly
 - 8 issued this order after listening to Mr Benzinge alone.
 - 9 Q. Let's go to the award, R-013. Now, starting on the
 - second page of the award, you see there that the --
 - 11 excuse me one moment.
 - 12 A. Ordinarily the arbitration authority would suspend the
 - arbitration until a determination could be made about
 - whether our objection to the suitability of Nelly was
 - appropriate or not. They did not do that, and that's
 - the reason that the arbitration went ahead without us.
 - 17 Q. You can see what the arbitrator found, which is that the
 - arbitrator -- just pausing there, this suggestion that
 - you went through the right procedure to notify
 - 20 the chairman of your objection and then didn't appear,
 - and that's your justification, that wasn't something you
 - 22 pursued on appeal, as part of your grounds of appeal to
 - either of the appellate courts, is it?
 - 24 A. I think we did, but I -- I don't remember concretely.
 - 25 It's not something --

Page 119

- 15:14 1 constitution of the panel; correct?
 - 2 A. I'm sorry, where are you reading from?
 - 3 Q. I'm not reading from anything, I'm asking if you
 - 4 remember?
 - 5 A. I'm sorry, you'll have to ask me again.
 - 6 Q. I'll put it again. NRD had been aware of the
 - 7 arbitration from the outset; correct, and it had
 - 8 participated in court proceedings relating to the
 - 9 constitution of a Tribunal?
 - 10 A. Yes. Both. We had objected on numerous grounds because
 - it was without merit and we went to court to be able to
 - 12 argue that it was without merit, and no basis for
 - 13 an arbitration.
 - 14 Q. Just to be clear, you didn't object to the idea of there
 - being an arbitration. The dispute, we can see from the
 - description of it, was as to the constitution of the
 - 17 panel, in particular, NRD's --
 - 18 A. No --
 - $19\,$ $\,$ Q. Sorry, just let me finish the question and you can tell
 - 20 me if you think I'm wrong.
 - NRD's position was that there should be three
 - arbitrators, Mr Benzinge's position was that there
 - should be one.
 - 24 A. Two separate issues. First, we objected that there
 - should be any arbitration. Secondly, the court, as
 - Page 118

- 15:17 1 Q. We have the judgments on both appellate courts in the
 - 2 bundle and that point was never suggested as being
 - 3 a point.
 - 4 A. I would be very surprised.
 - 5 Q. So if you had made the correct ground of objection to
 - 6 the arbitrator and it had not been considered, then
 - 7 that's obviously a point that would have been
 - 8 an available point of appeal, but it's one you didn't
 - 9 take; correct?
 - 10 A. No, that's hypothetical. I don't know about it.
 - 11 Q. Let's look at what actually happened. We can see from
 - the arbitration award:
 - 13 "The arbitrator summoned both parties but the
 - 14 defendant neither appeared before the court nor notified
 - 15 the court [by which that is meant the arbitrator] of the
 - legal reason for his absence before the Arbitration
 - 17 tribunal."
 - 18 So you didn't notify the arbitrator herself, did
 - 19 you, of your objection?
 - 20 A. That would have been our lawyer. I can't, I don't know
 - 21 who was notified, what the appropriate process is.
 - 22 Q. Then what happens in this award, and we don't need to go
 - 23 to the detail of it, is that in substance, first the
 - 24 award found in favour of NRD and against Mr Benzinge in
 - an application for summary judgment, effectively,

Page 120

15:18 1	summary relief. Then it went on to consider the	15:21 1	illegal. So for me that was the reason we took it to
2	substantive claims, and it found in favour of	2	the registry to say: how do we interpret this, what does
3	Mr Benzinge and against NRD; fair summary, or do you	3	it mean? We also took it to the Ministry of Justice and

- 15:24 1 apparently appeal had been made and the court affirmed that judgment, that ruling by the arbitration court.
 - 3 Q. Can you go to bundle R-032. This is a letter from you
 - 4 to the minister at the RDB.
 - 5 A. Yes.
 - Q. Can you go to page 4 of the letter. You see, again,
 - 7 this is another letter copied very widely, including to
 - 8 the Ambassador.
 - 9 A. Yes.
 - 10 Q. And if we go to page 3 of the letter now. I'm just
 - going to look at items (c) and (d) on this page. You
 - 12 say there:
 - 13 "The NRD company statutes require that there be
 - three arbitrators of 'international reputation'
 - appointed to arbitrate between the parties.
 - 16 Ben Benzinge has both a personal relationship with
 - 17 Ms Nelly Umugwaneza and she has no international
 - 18 experience, this makes her unfit to arbitrate in this
 - 19 matter."
 - Then you say:
 - 21 "NRD notified Ms Nelly Umuqwaneza, the Kigali
 - 22 Arbitration Centre and the Ombudsman's Office and the US
 - 23 Embassy of our objections. And yet Ms Nelly claims to
 - 24 have had an 'Arbitration' meeting without our presence
 - and issued her 'decision'. Obviously it is

- 15:26 1 We were instructed by our then counsel that we should
 - 2 not attend that meeting, which we did not attend, and
 - 3 then she went ahead and issued -- listened to
 - 4 Ben Benzinge and issued her decision.
 - 5 Q. I would suggest to you this is a misleading and
 - 6 tendentious letter sent to the RDB minister and copied
 - 7 to all these other individuals.
 - 8 A. Well, that's the best I understood it at the moment. If
 - 9 I was misinformed by my staff about what had happened,
 - 10 then I was.
 - 11 Q. Now, you also met with Mr Imena in a meeting at which
 - you discussed the Benzinge issue; correct?
 - 13 A. Yes
 - 14 Q. And contrary to what you have alleged, he did not say
 - that he had decided that Mr Benzinge owned 100% of NRD,
 - 16 did he?
 - 17 A. I disagree with you. He absolutely insisted Ben was the
 - owner of our company.
 - 19 Q. And you wrote a follow-up letter to him which is very
 - similar to the letter we've just looked at, in which
 - 21 again you did not make clear that Benzinge had an award
 - from an arbitration which you had been notified of but
 - which you had chosen not to attend.
 - 24 A. Sorry, the arbitration award does not say that
 - 25 Ben Benzinge is the owner of our company.

Page 127

- 15:25 1 incomprehensible how there can have been an
 - 2 'arbitration' when only Benzinge was meeting with the
 - 3 arbitrator."
 - 4 Now, what you're not making clear here is that you
 - 5 did not challenge the appointment of the arbitrator
 - 6 through proper channels and you did not make, on appeal,
 - 7 this allegation of bias that you're putting in this
 - 8 letter
 - 9 A. Yes, I was not sufficiently familiar with what was being
 - 10 pled by our lawyers to know whether we had alleged bias
 - in the case or not. I was not aware of it.
 - 12 Q. And you don't make -- I'm sorry, I interrupted.
 - You also don't make clear in your letter to all
 - these people that you in fact appealed this decision
 - twice and you didn't raise the allegation of bias;
 - 16 correct?
 - 17 A. I can't comment on it. I didn't know that we didn't
 - raise the issue of bias. This is the first I've heard
 - 19 of it.
 - 20 Q. And you don't make clear that you were in fact notified
 - of this arbitration hearing, chose not to attend it, and
 - the Rwandan court was satisfied that you were notified;
 - 23 yes?
 - 24 A. Yes. Well, no, you saw the letter where we were
 - objecting to Nelly and we wanted a different arbitrator.

Page 126

- 15:28 1 Q. No, I'm not on that point. All I'm saying is you wrote
 - a follow-up letter to Mr Imena, similar to the one we've
 - 3 just looked at, in which you, again, did not make clear
 - 4 that Mr Benzinge had an award from an arbitration which
 - 5 you had been notified of but chosen not to attend;
 - 6 correct?
 - 7 A. Everybody was aware of the arbitration award. I'm not
 - 8 hiding anything. If you would show me the letter, I can
 - 9 respond specifically to your question.
 - 10 Q. It's very similar to the one we just looked at and you
 - similarly repeated allegations of bias which were
 - 12 (overspeaking) --
 - 13 A. Well, show it to me then. Let me respond in
 - 14 a meaningful way.
 - 15 Q. Well, I'm trying to save time. You essentially cut and
 - pasted the same point?
 - 17 A. Well, then don't make the point if you are not going to
 - back it up with something I can respond to.
 - 19 Q. Well, okay, then let's look at C-090. This is the
 - 20 letter.
 - 21 A. Yes.
 - 22 Q. If you go to -- it's a long letter, so I'm not going to
 - take time on it. We can start with the fifth page?
 - 24 A. It's an important letter. In fact, this is one of the
 - 25 most important letters of all, I think, don't you?

15:29 1 2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23 24 25	 Q. It's the same letter as we've seen and it's one in which you make a number of points, but what you do not do is make clear that this was the position you were in resulted from an award in an arbitration which you had been notified of, but had chosen not to attend first. Just let me finish. Two points you don't make clear at any point in this letter: first, that you had an award from an arbitration you had been notified of but chosen not to attend; secondly, that the allegations of bias you had made in your letters are not ones you had pursued before the courts. MR COWLEY: Mr President, I would ask if we could get a clarification or correction. A number of these questions started with "chose not to attend". This line of questioning put in front of the witness, objections that were raised, talked about hearings, talked about appeals, obviously there was a defence. At some point the questions, and perhaps unintentionally, changed the word "attend" to "defend", and I would ask that Mr Hill really reconsider whether he intends to use the word "defend" after establishing it was defended and instead revert back to "attend". MR HILL: Can I I don't normally like Mr Cowley to interrupt, but I had certainly meant to say attend and 	15:31 1 telling us we were dispossessed, the company was now going to be in the ownership of Ben Benzinge. We maintained he didn't have the authority to make that decision. We also maintained that it was a nonsensical discussion because it was not what the arbitration had what the arbitration decision said, even though Ben Benzinge and his lawyer were waving a document saying: no, Ben's the owners, Ben's the owner, and he got credulous people to believe it. So we were closed from our offices, we were shut out on June 11th, this is a letter of June 13th, and we were shut out from our concessions. Q. Mr Marshall, the consequence of the award was that the shareholding reverted to Zarnacks, to the original shareholdings. So what you the representation you just made about shareholdings was inaccurate; correct? A. No, I think you are putting your judgment over that of the Ministry and the RDB, who caved to us and said: no, we agree, this doesn't change the ownership. We don't know who the Zarnacks are. We don't know who HC Starck are. Why would they come back at this point? Nobody said Ben Benzinge had more than a 15% shareholding. They were saying that somebody unknown hadn't bought, with a bona fide transaction, this company.

I'm not sure I ever said defend, and if I did, if it's appeared on the transcripts, I certainly withdraw that and I meant "attend". THE PRESIDENT: That's absolutely clear. Occasionally one makes a slip of the tongue in a lengthy case like this. MR COWLEY: I'm happy that an interruption actually served a good purpose. THE PRESIDENT: Yes, it has in this instance. A. I think it's important we are not rushed through this section because this is the point when the company gets taken from us, expropriated from us, whether you can say it's by Benzinge or the RDB or the Minister, this is where it's taken. MR HILL: Okay, so just pausing there, your evidence, your position is that the expropriation has happened by this point; yes? A. No, you're missing the point. We are not in possession of our asset. You can use whatever word you want and I don't want to be biasing the proceedings by saying it's a different word. We were owners of this company and it was given to Ben Benzinge, okay. For reasons we don't know, the Minister announced in the meeting, which you have skipped over, the Minister announced in the meeting, it got very hot and contentious because he was	15:33 1 Q. No, you are quite right. You're quite right about that, Mr Marshall, no one is saying Mr Benzinge had more than a 15% shareholding. That's common ground in this arbitration, there's no argument about that. Let's move on and go to R 6 A. No, I think this is the critical point, I have to be able to say 8 Q. That is, I am afraid, not how the process works, Mr Marshall. The way the process works is you answer my questions. 1 A. I'm answering your questions but you are rushing through the most critical aspect of this. Q. No doubt more time can be taken in re-direct by your attorney. Let's go to R-036, which is on a different topic. This relates to a grant and it's a letter from you to Mr Imena, and you say: "Dear Honourable Minister, "As you are aware, NRD has received preliminary approval for a (approximately) 1 million USD grant from the Dutch Government's PSI program for the Giciye/Nyatubindi area. This is your letter to the Minister of Justice, R-198, and we can see a number of copies, we can see on the second page you also sent the same letter to Mr Ambassador, to the Ambassador, we see that on page 2, if FTI could go to page 2. It's a note from you and you deal with the arbitration proceedings at item 5 of your note which is the last page of the exhibit? A. Sorry, just so you're aware, this is an honorary title sorry, I have lost the ambassador letter, if you could go back. That's an honorary title for the head of the Cabinet Office, that's not an actual ambassador, he was not serving at this time as a Rwanda ambassador in any foreign country. That's an honorary title that he keeps whatever his position. The primature is the cabinet, as I understand, or perhaps it's the Prime Minister's office, I'm not sure which. Q. Let's look at the last page where you deal with your complaint about the arbitration.

Q. He had made clear, hadn't he, as long ago as October of the previous year, that it was not appropriate for you to remain mining your concessions without applying for a licence? A. It never happened. Q. That's correct, isn't it? A. No, that's a narrative that was developed later. Q. Well, that's something that's evident from the minute of the meeting that we looked at, isn't it? A. I understand, and I'm telling you that those minutes are not an accurate reflection of what was in the meeting. They were never given to me, and under Rwanda practice, both sides have to approve the minutes. Q. Now let's look at C-155. This is from Mr Imena. He says he understands your concern in relation to the grant but: " the Ministry could not engage in any discussion with NRD unless its issues of ownership and management	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23 24	together with the bailiff our concessions and our corporate offices. Before certainly before 2014 when he came back in in connection with Mr Benzinge's judgment and the judgment of some 25 other employees, that's 2014. So I'm dealing with before that. A. I don't think so, but that's the reason I asked. I think that it was all at the same time, but please, if you would check it. Q. I will check. I'm going to continue I think you are right, Mr Marshall, it's also 2014. A. But do you know what month? (Pause). Q. No, I'm going to come back on the exact month. I'm just going to ask if you recall the events. You may be able to help me on the right month. So the story is that the minerals have been moved there by Mr Kibelinka of NRD,	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23 24	that court battle? A. Okay, I would have to see the documents but I get the gist of what you are saying. Q. You can see, just so you can see the judgment, it's at R-055, this is where NRD and the miners succeeded in their claim that the so this is the: "Claim: suspension of seizure and auctioning of minerals currently in the hands of MSA." Then if you go to the end of the judgment, it's on the last page, what happens is the court this is an April 2013 judgment, the court ultimately confirms the validity of the miner's assertions to title to the minerals. It orders a suspension of the execution on those minerals, and that's the order of the court? A. Yes. Q. And the reason I'm taking you to it is that there was no impropriety at any stage or anything corrupt or improper or wrong in anything Mr Bosco was doing. His position was clear in that he was only purporting to execute on the minerals on the basis that they were NRD's property, and all that happened was someone was able NRD and the miners acting together with the same lawyer were able to establish that the miners had personal title; yes?
22 3 4 5 6 7 8 9 10 11 11 12 11 12 12 12 22 22 22 22 22	you recall that? A. He had several seizures. That was not the first one. His seizure of I'm sorry. Q. Yes, it's quite a convoluted story, I'm not going to try and cover all of it with you, I'm just going to capture some elements of it. One of his actions was to seize some minerals which he considered to be NRD minerals stored in the warehouse of Minerals Supply Africa; yes? A. At what date? Q. I think it was 2013, but I will I'm not sure of that. I was never, until this very moment, aware that he claimed to represent the Rwanda Revenue Authority. Q. All bailiffs are contract bailiffs. Did he receive a contract from the Rwanda Revenue Authority? I never heard it. I don't know and I'm sure that the 28 people we don't know any of these. He never

He has a contract with them. It's not a court-appointed while his function is court-appointed, his job on behalf of any debt-holder is by matter of contract. So he went around and was able to gather up these individuals. As I say, he would never provide us with any court documents or any judgment information. We never knew what it was about. Q. He didn't follow any of the due process rules. Q. And I'm going to suggest that at every stage, Mr Bosco was following the due process rules and he was acting entirely within his authority as bailiff executing judgments, and that's right, isn't it? A. Sorry, you said you're going to make that argument. It's not possible, but you can try. Q. 16:32 1 knew from the court, but all the rest we did not. 2 Q. Can we go to C-071. This is a letter from you to 3 Mr Busingye. 4 A. No, this is to Johnston. This is the Minister of 5 Justice. 6 Q. Sorry, Mr Marshall. So, looking at the first three 7 paragraphs of this letter, you are updating Mr Busingye 8 on what you describe as the criminal acts of 9 Ben Benzinge and others, and you refer to taking 10 possession of the property, and then you refer to 11 complaints to the Ombudsman office, and then you say: 12 "We had discussions there today and as a result of 13 these discussions we were advised to send you this 14 request. Bailiff Nsengiyuma tried to have an auction of 15 the entire property of Natural Resources Development 16 Rwanda Ltd last Friday. That auction was cancelled 17 because nobody came to the announced place." 18 Now, just pausing there, you were aware of this 19 auction that I've just taken you to in the letter 20 because you deal with it in this letter from you? 21 MR COWLEY: Mr Hill, before he answers, I think you are 22 going to like this interruption again, I think you want 23 to correct, you started that question by saying the 24 letter was to Mr Benzinge. I don't think you meant 25 that. You might want to just look at the transcript.	16:35 1 He then has to give notice of an auction. There are commercial terms for that auction. And there has to be so many participants, there has to be such and such a percentage to the value. Following up that if there is a sale, pursuant to such an auction, he has to provide details and evidence of what happened to the proceeds. Never did he do even the first of those steps. He comes around and is acts like mafia and waves a document and says: I have a list of people who you or Starck before you owe, and that's as far as he ever went. There was never a legitimate process with Bailiff Bosco. Q. Can you go over the page here. You say: "This letter is also to respectfully request that your office suspend the mandate of Bailiff Nsengiyuma Jean Bosco with respect to NRD and its assets until the matter of the Bailiff's fraudulent sale of NRD minerals, as reflected in the attached Court decision, is fully investigated and resolved." And that's a reference, isn't it, what you call the fraudulent sale of minerals, isn't that a reference to the MSA story that we've already looked at where Bosco was in fact A. No. Page 155
16:33 1 MR HILL: I hope I said Mr Busingye. 2 MR COWLEY: I'm sorry, I apologise. I misheard you. 3 A. It's easier to call him Johnston, that's what he's 4 colloquially called. 5 MR HILL: Then you say: 6 "Ombudsman office told us to write you a formal request to suspend the auction until this case is solved. If the auction goes ahead and all assets are sold the damage will be un-repairable. 10 "This is a formal request to suspend the auction of the property of Natural Resources" 12 And what you neglect to mention in this letter was that Mr Bosco was simply acting as a bailiff enforcing court judgments that he had; yes? 15 A. No, sorry, two corrections: one, his job is to act as a debt collector. His title is bailiff. He collects on behalf of any in his function, he could be collecting on behalf of any legal debt. In this case, he claimed that they were court orders. There's a highly regimented process in Rwanda where you are given notice, you are given information about what the claim is, you're given the opportunity to discuss with whoever the claimant may be. That has its own internal formal process. He then has to give additional notice. He has to be able to say whether agreement was reached or not.	16:36 1 Q. No? 2 A. No, that's a different transaction. 3 Q. But at all times 4 A. In that case he was able to seize the minerals, bring 5 them outside the compound, the MSA compound, and he 6 claims to have had an auction and we were never given 7 notice or information about it, and he went off with the 8 money. We don't know what happened to the proceeds. 9 Q. Well, that's not right. We know that the MSA minerals 10 is just one story. We know how it ends in the end, but 11 we also know at all stages in that story, Bosco was 12 acting in accordance with his duties, and his perception 13 that these were NRD minerals because they had been 14 tagged by NRD; correct? 15 A. No, you're confusing two incidents. He tried it's my 16 recollection, it may have been more than twice but he 17 tried to seize minerals at the MSA compound on more than 18 one occasion. 19 This one I think is referring to that instance where 20 he had he was able to get the minerals outside of the 21 MSA compound and he had an auction on the street. We 22 were never informed, we were never consulted on any 23 we have no idea what happened to the proceeds. 24 Q. Now, after receiving this letter from you with your 25 description of what Mr Bosco was up to, Mr Busingye, the

- 2 important in a second. The military was with Bosco and
- 3 the bailiff. We were dispossessed of our entire
- 4 company, we were not recognised as owners for any
- 5 purposes, so the fact that at least nominally the
- 6 Minister was willing to recognise us for purposes of
- 7 these communications, we were appreciative.
- 8 During that 90 days or -- sorry, 60 days, they
- 9 looted the concessions, they looted our office, they had
- riots, one man was -- (answer cut off by questioning).
- 11 Q. Mr Marshall, I'm going to stop you --
- 12 A. I have to insist --
- 13 Q. -- because this is not an answer to my question?
- 14 A. -- I have to insist -- you won't understand this letter
- unless I explain this, please bear with me for two more
- 16 minutes.
- 17 Q. No, it's not the question --
- 18 A. I'm sorry, you have to understand what happened. This
- came -- this letter is after we got our concession back
- and after the killing stopped. 40 people were murdered.
- 40. We were out of the concession area, we were left
- alone. Do we suspect that maybe the military took us
- out of there and gave it to Benzinge while the killing

- 25 most terrifying time in my life.

- 16:45 1 responsibility for your concessions, and at that point
 - 2 the killing stopped.
 - 3 Q. That answer, I don't accept any of that at all, but it
 - 4 has nothing to do with the questions I asked, and
 - 5 I'm going to move on.
 - 6 I'm now going to go back to the topic of --
 - 7 A. It's a bailiff seizure; isn't that responsive?
 - 8 Q. I'm going to go back to the topic of the licences.
 - 9 You will recall that you had been invited
 - in April 2014 to apply for licences under the new rules.
 - We looked at that earlier; yes? Do you recall that
 - 12 letter?
 - 13 By August 2014 --
 - 14 A. Nothing came up, I'm sorry.
 - 15 Q. By August 2014, you had not made any application for new
 - licences, had you?
 - 17 A. We had been making -- our application goes all the way
 - back to 2010. No document came up. I don't know what
 - 19 you're referring to.
 - 20 Q. Please go to C-064.
 - 21 This is a letter from Mr Imena to NRD in August
 - 22 2014, and you can see that it is addressed to the
 - 23 company and not to any individual at the company in
 - 24 particular; do you see that?
 - 25 A. Yes.

Page 163

- 16:44 1 Q. Mr Marshall, what the Minister of Justice is explaining
 - 2 is that his department have examined the issues and they
 - 3 are satisfied that these were legitimate judgment
 - 4 creditors and therefore that Bosco was entitled to
 - 5 execute; correct?
 - 6 A. No. Their execution was on our concessions. They took
 - 7 over \$800,000 worth of equipment, fencing, other
 - 8 supplies. That was an execution.
 - 9 Q. And all of Mr Bosco's actions at each stage were the
 - lawful actions of a bailiff, weren't they?
 - $11\,$ $\,$ A. No. We never got one notice. We still don't know what
 - those claims were. We know the Pascal claim.
 - 13 Q. And they arose because of a series of judgments against
 - NRD as a result of which NRD was a judgment debtor?
 - 15 A. A series of so-called judgments which were not made
 - available to us. We have no idea who they were or what
 those claims were, and the seizure of our NRD
 - 18 concessions wasn't taken, in the sense of that was how
 - 19 he was going to auction assets to pay the creditors, and
 - it was far less, it was maybe \$30,000 in total, and
 - 21 instead they took the whole concession and sold some by
 - 22 auction, some by theft, some by whatever means, and only
 - on August 22nd did we get it back. The delegation
 - 24 arrives with the military on the 24th, and the military
 - calls us up and says: please come and take

Page 162

- 16:46 1 Q. He refers in the second paragraph to the fact that the
 - 2 licence has expired:
 - 3 "Further reference is made to the Letter of the
 - 4 Honourable Minister of Natural Resources,
 - 5 dated September 13, 2012, extending NRD's ..."
 - 6 A. Sorry, what's the date of the letter?
 - 7 Q. This is August 2014.
 - 8 A. What day in August?
 - 9 Q. I will come back to you and tell you the answer to that.
 - 10 I don't think it matters for my questions but tell me if
 - 11 you think it does when I ask them. 18 August.
 - 12 Now, he says:
 - 13 "Further reference is made to the Letter of the
 - 14 Honourable Minister of Natural Resources,
 - dated September 13, 2012, extending NRD's licence for
 - three months expiring in October 2012."
 - So he's referring there to the fact that the licence
 - has expired, yes, in October 2012?
 - 19 A. He says that that extension expired in October 2012.
 - 20 Q. Yes. And then a little lower down the page --
 - 21 A. I don't know that he's saying that all of the licences
 - 22 have expired. We interpreted it as executory, as
 - 23 I think I told you.
 - 24 Q. A little further down the page, he then says:
 - "Considering the fact that the negotiating process

They were in a completely different position from you?	2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23 24	because you were told specifically what was required? A. No, that's simply not true and you weren't there. You know, we had a terrible time with Minister Evode because he was off on his own frolic. We had started with an indulgence, yes, we'll bring money, we'll bring investment, and now they're again looking for an opportunity, an excuse, to be able to say: oh, you failed and now we're going to keep everything, without compensation. Q. Well A. Rutongo, for legal purposes Q. Just to be clear, Mr Marshall, my question is you had no doubt about what was required because he told you in this letter what you had to do, and gave you a list of targets to hit, didn't he? A. I understand, and I'm telling you that we had communications with his office that this is not it must be intended for other people but not for us because you know us, you know what we have invested, you know what research we've done and what is this formality. Q. Now you've just invented that? A. No, that's why we went to Minister Biruta and asked him the question. He gave us absolute unconditional

- 16:52 1 Q. You just invented this story about other people in
 - 2 Minister Imena's office telling you it was a formality
 - 3 or whatever you just said, because the only evidence
 - 4 you've given before is that Minister Biruta said
 - 5 something, and now you've invented something about other
 - 6 people in Minister Imena's office --
 - A. I'm sorry, what was my quote, I don't ...
 - 8 Q. Let's look at your quote. You said:
 - 9 "I understand and I'm telling you that we had
 - 10 communications with his office that this must be
 - intended for other people but not for us."
 - You have just invented that, haven't you?
 - 13 A. No, we believe that to be true. This is a generic
 - letter written for people who have just arrived in the
 - 15 country, not for somebody who has already been here for,
 - at this point it was seven years. It's written as if
 - they don't even know who we are or what our name is.
 - I would like to point out to you that, for example,
 - Musha, another concession holder, arrived and three
 - 20 months later was awarded the 30-year concession without
 - 21 any investment or any research so there's very disparate
 - treatment between people who are applying for licences.
 - At this point we had a problem with Dr Michael and
 - 24 they were trying to create a false test process which
 - 25 they would then declare we failed.

- 16:55 1 fully kicked in and we were completely out of tags.
 - 2 Q. Now, the tagging system was intended for licensed
 - 3 operators, wasn't it?
 - 4 A. All operating mines had tags.
 - 5 Q. No, just answer my question. The tagging system was
 - 6 intended for licensed operators, wasn't it?
 - 7 A. All companies in our position had tags.
 - 8 Q. If you go to Mr Niyonsaba's supplemental witness
 - 9 statement at paragraph 16.
 - 10 MR BRODSKY: Forgive me, that name one more time?
 - 11 MR HILL: Niyonsaba.
 - 12 MR BRODSKY: Thank you.
 - 13 MR HILL: Paragraph 16. He is the man who is the Pact ITRI
 - 14 man. He explains in paragraph 16 --
 - 15 MR BRODSKY: Supplemental?
 - 16 MR HILL: Sorry, supplemental, I'm so sorry.
 - 17 MR BRODSKY: That is, this is the supplemental.
 - 18 MR HILL: Exactly:
 - 19 "Tags are only issued to licensed mining
 - 20 operations."

21

- So the way the scheme works is you need to be a
- licensed operator in order to have tags; yes?
- 23 A. We were the only mining operation in the history of ITRI
- that had our tags withheld from us for no reason.
- 25 Q. Well, your licence had expired and you had been asked to

Page 171

- 16:54 1 Q. You say a false test process, but you've just said, even
 - 2 on your own evidence, that this is something that other
 - 3 people were required to comply with. It's not bespoke
 - 4 to you, is it?
 - 5 A. As if you'd never known them before. They've known us,
 - 6 they've seen our work, they've seen our investment.
 - 7 Q. But your work has been considered inadequate before and
 - 8 you have been repeatedly told to apply to licences,
 - 9 which you haven't done.
 - 10 A. If your point were true then you would think that they
 - would have a narrowly tailored conversation about what
 - 12 needed to be done differently. Not: please tell us your
 - 13 name and do you have any bank accounts.
 - 14 Q. I'm going to come back to the application you made.
 - 15 Let's go onto the story of tagging because we're now in
 - the summer of 2014, and one of your complaints in this
 - arbitration is that from the summer of 2014, Mr Imena
 - was unwilling to provide tags to NRD for the mineral
 - 19 tagging system; yes? That's one of your complaints?
 - 20 A. Yes, I think it began in March -- well, the way the
 - 21 tagging process worked is that some tags were --
 - a quantity of tags, if there was a secure place in the
 - 23 mine, would be kept at that mine site. So even though
 - 24 Minister Imena instructed that no tagging be done on any
 - of our concessions anymore, it took some weeks before it
 - Page 170

- 16:57 1 apply for new licences and you hadn't done so.
 - 2 A. All licences had expired. We were in exactly the same
 - 3 position as every other company.
 - 4 Q. You had been asked to apply for new licences and you had
 - 5 not done so?
 - 6 A. Rutongo was in the same position, they had no licence.
 - 7 Q. Rutongo had applied for new licences, hadn't they?
 - 8 A. With the same application we had given.
 - 9 Q. Not remotely the same application you had given, because
 - 10 your application had not been accepted and you had made
 - no renewed application as you had been asked to do by
 - this stage repeatedly, correct?
 - 13 A. No, it's completely a misrepresentation of the fact
 - 14 pattern and, more than that, you know, as Dr Michael
 - kept saying, look, these are half of all the mining
 - areas in Rwanda are being held by NRD, and by
 - withholding tagging from us, that meant effectively the
 - 18 tagging system had no effect in Rwanda.
 - 19 Q. And by the summer of 2014 you should have been applying
 - for a licence, shouldn't you, and you had been asked to;
 - 21 correct?
 - 22 A. You're misrepresenting, he didn't ask us for anything.
 - He said: Ben Benzinge owns your mines and therefore
 - 24 we're not going to give you the tags. He later came up
 - with the argument that the tagging licence hadn't been

- 16:58 1 applied for and he wanted to, as he put it, regularise
 - 2 our licensing position.
 - 3 Q. And one of the points about making an application for
 - 4 a licence is that that's the process by which the
 - 5 government gets to determine whether you're entitled to
 - a licence and whether you're a worthy licence-holder;
 - 7 correct?
 - 8 A. You'll have to rephrase the question, I'm sorry.
 - 9 Q. One of the points of having a licence is it's a process
 - by which the government can make an assessment about
 - whether you deserve a licence and you are a worthy
 - 12 licence-holder; correct?
 - 13 A. Yes. Within the indulgence that we started off with
 - 14 from the beginning: please come and invest and the
 - 15 licence will follow.
 - 16 Q. Mr Imena -- I'm sorry, I cut across you. Had you
 - 17 finished?
 - 18 A. Please.
 - 19 Q. Mr Imena explained to you in September 2014 that there
 - were two impediments to him providing the tags. The
 - 21 first one was that you did not have a licence, and
 - providing you with tags would just be encouraging you to
 - 23 carry on as an unlicensed operator, making money out of
 - 24 non-industrialised artisanal mining and not bothering to
 - 25 apply for a licence, and that's --

- 17:00 1 proceedings if GMD issued tags to you, or to you as
 - 2 purported controllers of the company, such that Mr Imena
 - 3 was at that stage faced with competing claims, wasn't
 - 4 he?
 - 5 A. No, I never heard he was going to bring a claim but
 - 6 I wonder if I had threatened to bring a claim whether he
 - 7 would have reversed himself. So as I take it from your
 - 8 comment, if you threaten suit, then they buckle and say
 - 9 the owner is not the owner and we're not going to give
 - tags to anybody?
 - 11 Q. It isn't a question of threatening suit, is it,
 - 12 Mr Marshall --
 - 13 A. Well, it sounds like he's threatening suit.
 - 14 Q. -- Mr Benzinge at that point had a Supreme Court
 - 15 judgment which validated his possession, didn't he?
 - 16 A. No, you just said that Mr Evode was faced with the
 - 17 threat of a suit from Benzinge.
 - 18 Q. Yes, he was faced with competing claims and one of the
 - claims on the other side to you was a claim from someone
 - who said he shouldn't be issuing tags to you because you
 - 21 weren't the lawful controller of the company and he had
 - a Supreme Court judgment to back him up; that's fair?
 - 23 A. No. Under Rwanda law, the registrar of a company
 - registry is the one who records who owns what. It's not
 - a matter of ongoing debate to be determined by

Page 175

- 16:59 1 A. That's completely (overspeaking) --
 - 2 Q. -- that fairly summarises what you're up to, doesn't it?
 - 3 A. Absolutely not.
 - 4 Q. And that would be contrary to the scheme of the iTSCi
 - 5 system, isn't it?
 - 6 A. No, the iTSCi system is -- and I'm sorry, I don't want
 - 7 to lecture you -- but the iTSCi system is tags are
 - 8 withdrawn from those companies who violate iTSCi rules,
 - 9 no other reason. We are the only company who on
 - 10 Mr Evode's say so, had the tags withdrawn. No other
 - $11 \qquad \text{company in the history of the iTSCi programme did that} \\$
 - 12 happen to.
 - 13 Q. Now, the second point that Mr Imena made is that
 - 14 Mr Benzinge had the benefit of this arbitral award,
 - supported by court decisions, and the effect of that was
 - that you were neither the lawful management nor the
 - 17 correct shareholders of NRD, and that was a fair summary
 - of the consequence of the arbitral award, wasn't it?
 - 19 A. No, obviously not, because the registrar didn't change
 - the registration.
 - 21 Q. And Mr Benzinge --
 - 22 A. Mr Benzinge, at the end, before and after the
 - arbitration, still held 0.2% of all shares. Nothing
 - 24 more
 - 25 Q. And at that point, Mr Benzinge was himself threatening

Page 174

- 17:02 1 a minister of mining.
 - 2 Q. Now, that's your legal --
 - 3 A. We were the owners of the company; Ben Benzinge was not
 - 4 the owner of the company.
 - 5 Q. Mr Marshall that's your legal proposition about the
 - 6 effect of Rwandan law, but that's actually not the
 - 7 effect of the Rwandan law, is it? The judgment of the
 - 8 RDB is not determinative, is it?
 - 9 A. It's the first I've heard of it.
 - 10 Q. Now, let's go to --
 - 11 A. On what basis do you say that?
 - 12 Q. -- R-203. This is the note of a meeting with Mr Imena
 - in September, and can we look at what --
 - 14 A. Can we say that the reverse is true, by your
 - 15 supposition?
 - 16 Q. I'm not answering your questions, and that issue on
 - 17 Rwandan law is actually one of the legal matters for the
 - 18 Tribunal so I can move on.
 - 19 A. I just don't understand the point. What you're saying
 - 20 is -
 - 21 Q. No, no, I'm not going to engage on debate in this,
 - 22 Mr Marshall, I'm going to ask you about the next
 - document, which is R-203, and this is the note of the
 - 24 meeting which you held --
 - 25 A. Well, no, I need to understand -- you're going to ask

17:03 1 questions that's based on that question. What's the 2 point 3 Q. No, I'm not, I'm just asking you about what happend 4 a meeting and I'm going to ask you to now go to the 5 minute of the meeting. R-203, this is the note of the 6 meeting with Mr Imena in September, and I'm going 7 look at what you said at this meeting, and you can se 8 that the first discussion is about NRD and Benzinge. 9 I'm going to ask, can we go to page 2 of this minute. 10 We have here: 11 "Next discussed point was tags. NRD in its 12 letter (as attached) asked the Minister to provide tags 13 for the NRD concessions. Minister said that he will 14 approve to provide the tags if NRD doesn't have lice 15 NRD pointed out that from 2011 there is no licence as 16 NRD was allowed to mine and tag. Invitation for the	4 A. My recollection is they couldn't get a meeting until two 5 days before it was due. 6 Q. And you didn't request an extension until then, either 7 by correspondence or in a meeting; correct? 8 A. You'll have to ask Ms Mruskovicova, I don't know that. 9 Q. And the problems, as the Minister said, the problems of 10 getting into your Kigali office were indeed your own 11 problems, weren't they, because they resulted from 12 lawful court rulings that NRD was subject to; correct? 13 A. No. No. We were the only company in Rwandan history, 14 as far as we know, that was seized in its entirety for 15 a debt which was a tiny, tiny fraction of some of the 16 value of its assets.
17 negotiations for the long term licence was sent from 18 Minister in April 2014." 19 And that's right. 20 "Then the Minister said that he received letter last 21 week from Benzinge that Benzinge doesn't want the 22 Minister to give NRD tags. Benzinge signed it as 23 'Managing Director of NRD'. NRD said that it make 24 sense if individual is sending letter and Minister 25 ignores the letter sent by Minister of Justice in which Page 177	can we'll go to some of it in a moment, but it didn't
17:04 1 the bailiff, awards and judgments were suspended." Now, just looking at that, you this idea NRD say it makes no sense, you're referring there to the letter that we looked at earlier where the Justice Minister suspended execution; yes? We saw that earlier. A. I wasn't at this meeting and I don't know. I would prefer if you asked Ms Mruskovicova. Q. Do you want me to that's fair enough. You weren the meeting, I will it enables me to save some time I'll move on and I'll ask Ms Mruskovicova. Now, in this meeting you'll see that what was requested was an extension of time for making a licer application, and the Minister refused the extension saying that your problems were your own, not his, an you should provide what you're able to in accordance with the deadline and supplement it as necessary. A. Well, I would suppose not being there, I can't be sure, but I would suppose that that was a reference to the fact that the government still had our offices and we had no access to the documents that were being so in the application. Q. Just so you can see, it's on the first page, this particular part of the meeting is dealt with, and that's it's just dealt with something at the second half of that second paragraph.	Q. For example, you were required to obtain tax clearances and that was just a question of seeking confirmation from the Rwandan Revenue Authority; yes? A. No. We were not recognised at that time as the owner of the company, you will recall. RRA would not speak to us. Q. And the reason that you did not obtain tax clearances is not for that reason, nor because you didn't have access to your office, but because NRD hadn't been paying its taxes and owed unpaid debts to the Revenue and you could never have got a clearance from the Revenue, could you? A. No, that's a gross misrepresentation and that's slander. Q. You knew very well that the Revenue regarded you as having outstanding debts to it, didn't they? A. No, as we talked about yesterday or the day before, there was an allegation from the Rwandan Revenue Authority that HC Starck had not accounted for some of

17:08 1	5 5 1 1	17:11 1	35 years, renewable. The definition of 'mining

We've got a section dealing with satellite image tools, and then on page 71, it says, three paragraphs down: "In addition to the research reflected in the supplemental materials to this Feasibility Study several field campaigns of exploration works were performed" And then you say: "In the text below we roughly summarise performed work." Can you see where I'm reading from? It's immediately above the 4.9: "For detail we refer on report NRD 2010 and 2008-2010 Annual Status Reports and supporting materials." So it's clear, isn't it, that as regards this work also, surveying work, this feasibility study identified no material new work that had not been identified in the November 2010 application? A. No well, I'm not saying that it's directly stated, but certainly we had teams of geologists permanently in Rwanda from the Czech and Slovak Republics. Q. If you had done any material new surveying work you	17:22 1 2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23 24 25	 Q. Now, let's look at paragraph 88. This is dealing with mineral reserve modelling. Can we start with starting with exploration and sampling, and at the beginning of the first paragraph it says: "Wolframite sampling: initial reserve estimates were carried out (pre-2010) for the primary wolframite deposits at Rutsiro and their associated secondary tailings deposits." So again there, the work done for reserve estimates was pre-2010; yes? A. No, that says initial reserve estimates were carried out then. Q. And no other work is identified; correct? A. Well, you'll have to let me read it. If you want me to read it, I'll double-check, but Q. It's just describing the work that we see in the November 2010 application? A. Yes, but all of the sampling was ongoing. As we're mining, we're sampling. We were unique among all mining companies in the ability to do that because we were the only mining company with a lab. I beg to differ with you about what this means. If you are saying that we failed because we didn't specify much of the exploratory work after 2010, that's not to say it didn't happen. I think your staff, your client's staff would be able to

A. No. Q. Let's go to page 88. A. It may be less promotional than it should be, it may be less of a statement to show how great we are, but that's what we wrote. Q. And the reality is, also, Mr Marshall, it's not just this document, although we'll keep going to it, you had other opportunities to supplement your material, you were given a number of opportunities by the government and you never produced any updated investment or surveying data, did you? A. I beg to differ. I think we did provide every time the geologists did work they spoke with their counterparts at the Ministry, they would have provided them with those studies Q. You never A (overspeaking) not providing them to us today doesn't mean that the work wasn't done. Q. You never improved this part of your application, even though you were given repeated attempts to improve on your application, did you? A. No, we did improve on this part of the application.	17:24 1 2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23 24 25	verify it. We took thousands of samples. Q. If you had done that, you would have identified them. Let's go to Mr Imena's witness statement at paragraph 33. A. These seem to be questions of fact to me, you know, and I would urge you to go back and do a more detailed investigation, since you are accusing me of not doing something when you have the information to be able to demonstrate whether it's true or not. Q. Now, Mr Imena deals with this application, and he summarises his take on it. He says: "On 18 September 2014, NRD submitted a partially complete application for the issuance of long-term licences. It included a 'feasibility study update' which, although some 90 pages in length, contributed almost nothing new it was largely a reworking of the November 2010 Application with some generic geological reports obtained from public records." And that is a fair assessment, isn't it, of the feasibility report that you submitted? A. It's entirely unfair, because I know that our staff spent hundreds of hours on it, and I wish you would do a close comparison rather than referring to conclusory remarks by somebody who is very biased. Q. We're very happy to do a close comparison of this

So, for example, if you look at the bottom of page 3, there was "Tax Clearance Certificate from the Rwanda Revenue Authority", "submitted: no", and then their observation is that: "The company is said to have [294] million Rwandan francs as a tax liability to the Government of Rwanda. And that's a fair analysis of the feasibility study you submitted, isn't it? A. No, as a practical matter, the Ministry provides the applicant with the amount of the expected investment at each and every location, and the expected amount of production that would come from the mining. The reason for that, just so you understand, is that that's part of a commercially reasonable long-term concession licence so that there are performance characteristics, goals, requirements, in the contract itself, which could lead to termination if you didn't meet it. But for us to we would never presume, and it's

17:41 1 Ministry had provided to us before. 2 Q. Well, you knew, didn't you, that this was one of the 3 items on Mr Imena's list, because this report is going 4 through the list. I'm going to pick up another one. Do 5 you want to answer that? 6 A. But my point is that by this process, they've changed 7 their approach. It's no longer a collegial give and 8 take about these issues. From what I'm hearing from you 9 is: he sent you these requirements, you didn't answer, 10 or you didn't answer in the way that he expected, 11 therefore you failed. That was never the process in 12 Rwanda before this time. 13 Q. Let's go to page 5. Let's go to page 5. You were asked 14 to provide minimum work commitment on each mining area, 15 to which their response is: 16 "No. The company did not submit the information 17 requested, however the company in its document that seem 18 to be not updated shows some proposed activity in 19 research, production, reserve, calculation, processing 20 environmental mitigation and work safety for the 21 period [January 2011] to [January 2015]." 22 And, again, your work proposal hadn't been updated 23 since the November 2010 application, had it? 24 A. No, you have the office, you have the documents, I can't 25 be sure because, again, this is the first time that this	17:44 1 A. So where's the category for what has already been done? Q. In answer to my question: you did not submit any kind of proof for financial capacity to support any of the activities planned, did you? A. Well, I'm sorry, I don't mean to be rude, but we've already invested. We've already invested \$20 million, isn't that proof of financial capacity? Why does it start from zero? Why does the application suggest that anything you've done so far is meaningless? Now tell us what you're going to do and what it means in the future without even talking to us? Q. So the answer to my question is in terms of the planned activities going forward, which is what this document was supposed to indicate, you did not provide proof of financial capacity, did you? A. I have we were never asked in that context. Q. You were asked specifically because it was one of the items on the list; correct? A. No. No. No, we were asked do we have the ability to build out these concessions. We've invested \$20 million and now we we assume that that's to address that question. What is your financial capacity? \$20 million this year. What more do you need? Nobody has invested \$20 million in the industry even since then. I don't think there are three companies in Rwanda right now with
17:43 1 kind of comment would be made. In fact, I've never 2 heard of it being made without a consultation with the 3 applicant. 4 Q. Then the next bit, a little lower down on the same page, 5 the penultimate row: 6 "The financial capacity to support each commitment 7 with supporting documents to prove such a capacity, for 8 example a bank guarantee from any financial recognised 9 institution by the Rwandan Government." 10 So, again, you're being asked to demonstrate 11 financial capacity and their answer is no, their 12 evaluation is: 13 "No. The company did not submit any kind of proof 14 for financial capacity to support any of their 15 activities planned." 16 That, again, is a fair assessment of the application 17 you put in, isn't it? 18 A. No, it's very unfair. 19 Q. Are you suggesting you did submit proof of your 20 financial capacity to support the planned activities? 21 A. Correct me if I am wrong, but this is for all new 22 applicants, for people they don't know anything about, 23 not somebody that has invested significant amounts of 24 money already. 25 Q. In answer to my question	17:45 1 more than a million dollars investment. 2 Q. No, I don't accept that \$20 million figure for a moment and we have been through that, but now let's look at what Mr Imena says about your report. 5 A. Pick a number then. We've already invested. What you're saying, if you follow the logical conclusion of your question, what you're saying is everything that's done doesn't count anymore, it's only about what you're going to do now. That's a very "thank you very much, you've given that to us". 10 Q. Mr Imena received this recommendation, can we look at what he says at paragraph 33 of his witness statement. 13 And in the second half of that document he refers to the evaluation by this team and he says: 15 "They found that NRD had failed to provide numerous documents that were required of them including a Tax 17 Clearance Certificate a recommendation from the Rwanda Environmental Management Authority on the status of the environment at the five concession areas; proof of financial capacity to support each commitment, ie to invest and develop the mines; and work plans in relation to each mining area, ie plans as to what they were planning at each of the five concession areas and how they would go about this. These documents were critical to our evaluation of NRD's application; for example, the

tax clearance certificate was necessary to demonstrate that NRD had been paying taxes; and the recommendation from REMA as to the status of the environment was critical because we had concerns about environmental damage occurring at NRD's sites." And that was a fair evaluation of the flaws or some of the flaws in your application, isn't it? A. No, I think you're fundamentally mistaken. First of all, we could not get anything from the Rwanda Revenue Authority, they didn't recognise us, for whatever reasons they had, as the owner. There was no basis on which we could get them to negotiate anything. Would not recognise us. We tried. With regard to the Rwandan Environment Management Authority, we went there to talk about what regions they could either do or support, consult, to look at whether there are environmental challenges that had to be met. Their official position is, they don't do any work until a licence is awarded. None, zero. They don't they're not going to do speculative work. They say if you own that licence for that specific area, then yes, we will come and review it. So we were stymied there, we had nothing more we could ask. Q. Mr Marshall, you are again coming up with points which are a fiction, aren't you? Page 209	17:49 1 A. No, and I think he has entirely misunderstood what we took to be the principle: that we should be like any new investor, if you were considering us as a new investor, that the \$20 million that's already invested be credited to us. What additional proof do you need of our financial capability? 7 Q. Now, just a couple more questions on this area before I move on, or before we have a break, in fact. 9 Paragraph 35 of this statement, Mr Imena summarises his response, that the evaluation team determined that many of the documents were: 12 " unsatisfactory, including the financial document I have referred to and that NRD had [failed] to provide any tangible document that proved its financial capacity to develop mines. Accordingly, by letter dated 28 October 2014, I advised NRD that had a decision had been made not to grant it any mining licences, but that NRD had seven days to file an appeal against this decision. I gave NRD this right to appeal despite being under no obligation to do so." 21 And it's right, isn't it, that he gave you a seven-day opportunity to appeal, despite not being required to; yes? 24 A. My understanding from the Minister at that time was that it was mandatory; that he, as part of due process
1 age 209	1 age 211
17:47 1 A. No, I am afraid your client hasn't informed you of the full nature of what's going on in Rwanda. Q. Can we look at paragraph 34? A. This again, this was not presented to us at that time, so these complaints we had no ability to discuss with them. Q. So here Mr Imena says: "I have seen the document headed 'Selected financial transactions from 1996' submitted by NRD as part of its 18 September 2014 application allegedly as evidence of NRD's financial resources. That document contains no information regarding NRD's financial resources or its ability to finance the investment and development of the five concession areas. On the face of it, the document has no relationship to NRD at all. As evidence of NRD's financial resources it was completely worthless. The fact that NRD chose to submit this document as evidence of its financial resources was further evidence to me that neither NRD nor Mr Marshall were taking the application process seriously. I do not believe that NRD can have been under any doubt as to what was required." And that is a fair comment on the list of transactions by your law firm that you provided, isn't it? Page 210	17:50 1 rights, we had the right of appeal, and we took that 2 opportunity to appeal. 3 Q. And there has been nothing unfair, has there, in any 4 part of this process? You were told what you needed to 5 do, you didn't do it as you were asked to, there was 6 an evaluation by a team looking at things objectively, 7 and the Minister accepted the recommendation of his 8 team; that's fair, isn't it? 9 A. It's entirely unfair and entirely unreasonable. We 10 should have been treated exactly the same as all other 11 large-scale concession holders, and we were not. We 12 were singled out for this treatment. And the only one 13 among them singled out for this treatment. 14 Q. And by the time we get to 28 October, so some time after 15 you put in the application, when Mr Imena communicates 16 his refusal, you still hadn't attempted to supplement 17 the application in any way, had you? 18 A. I'm sorry? 19 Q. You hadn't attempted to supplement the application in 20 any way? 21 A. I think we submitted additional detail. He knew what he 22 was doing. He knew that we were not able to get access 23 to the office, he knew we had no tags, he knew we had no 24 rights to be able to mine. So this was, in our mind, 25 a perfect set-up, which is why we continued to rely on

This is a letter from you to the Rwandan police; yes? That's "CG, CID", isn't it? A. Yes, that's the police. Q. And it's headed "Formal Complaint Against Apparent Corruption", and in this letter you are, on its face, complaining to the police, aren't you, that Mr Imena has been corrupt? A. Yes. I haven't read this letter, but I do recall sending a letter informing the police about Mr Imena's corruption. Q. And this is A. That's not the only one. Q this is not stamped and doesn't have the company's seal, this letter, and I'm just asking you, are you sure you sent this letter? It seems unclear that you did? A. I'm sure we sent the letter to the police about his corruption. Q. And can we look at the last page of the letter? We can see that you copied the letter, if you did send it, to the President, the Prime Minister, other ministers and the US Ambassador? A. Yes.

Well, it says CC, and you were seeking to do maximum 3 in this letter, because it's a long letter. Taking up E 4 4 damage to Mr Imena, weren't you? 5 5 A. No, my objective was to get fair treatment for our "We have lost millions of USD of income, beginning investors and I knew Mr Imena was corrupt. 6 more than 5 months ago, because Minister Evode illegally 6 7 Q. Let's look at some of the points you make. Can you go 7 shut down our business. He shut us down by refusing us 8 8 to the first page of your letter. We have this the ITRI 'control tags' which are required by law before 9 complaint, and under the complaint you say: 9 any minerals can be sold. This was illegal and without 10 10 due process: we had no hearing, received no notice of "A. We have lost our mining business through what 11 closure, and were repeatedly refused an audience with 11 appears to be a State 'taking' or nationalisation of our 12 company's assets, including mining licences ... which 12 Minister Evode." 13 was announced by Minister Evode on 28 October 2014." 13 But, as we've seen, and as you don't explain here, 14 14 NRD had no licence, and Mr Imena was also facing So you are describing his notification that your 15 licence application has been unsuccessful as a State 15 a competing claim; yes? 16 A. The licence issue as an excuse didn't come up until much 16 "taking" or nationalisation of the company's assets, 17 which is a crime on his part; is that what you're 17 18 saying? 18 Q. That's not right. Just stop there, Mr Marshall. That's 19 19 A. No, I think you're taking it out of context. I think not right, because we've already been to the meeting 20 the seizure of our business, the closure of our office, 20 with you at which this was discussed, Mr Imena set out 21 21 the shifting of an application from one that had already his position in relation to the licence and that is 22 been in process for a long time to a new one where there 22 before this October letter. We've been to that meeting. 23 23 A. You are saying, and you're referring to this taking or bite in the beginning of April 2014. That's his letter declining your 3 Then we had a meeting late May, you can tell me what the 4 4 application for licences, and you are saying to the date was, where he explained that Ben Benzinge was the 5 5 police that this is a corrupt nationalisation of your owner of our concessions. Not meaningful ones. We had a meeting with 17 17 Minister Evode in March with his lawyer, I mean May, and settling; correct? A. No, no, that wasn't how we understood it. We did have 18 18 this is the exciting one where Isaac, formerly our 19 several meetings with the Minister of Justice. Then you had a meeting in September, didn't you? 22 22 The bailiff was, you know, not behaving like a bailiff A. Well, we could have. 23 should or could. We still had no information about, 23 Q. 18:18 1 Q. Minister Evode did meet with you, and what you said in this letter is inaccurate? 3 A. Look, this is a very small community. Ordinarily we would have near daily contact with these people. We had been put out into the cold. No other mining company was treated this way. We simply didn't know things. We had to find things from the other mining concession holders what was going on. In earlier periods, we had simply stopped by, they would stop by our mine, it was very collegial. It's a small group trying to solve a handful of problems. 12 Q. Let's look at what's then said in item 2 of your complaint: 13 "The letter dated 28 October 2014 from Minister Evode to NRD is drafted to read as if Minister Evode is merely denying a 'mining licence application'. Minister Evode has selectively used the facts to pretend that the relationship between NRD and the Government of Rwanda is only in respect of an application for a mining licence. This is not true. 11 In fact, it appears that because Minister Evode's letter cancels 'all' relationships, he is 'taking' or nationalising the NRD business. Minister Evode's letter does not follow the usual and customary Rwandan administrative practices." Page 221	18:21 1 acquiring arms. We helped them on acquiring arms. We don't know what they ultimately purchased, but we set up relationships they didn't otherwise have. 4 Q. Can you look at the second page. So this is from the Ministry of Natural Resources. He says: 6 "This letter serves also to inform you that the Ministry has terminated all prior working relations with your company. Consequently, if no any other contrary decision is taken within the notification period mentioned you are requested to proceed with the closure process of mining operations" 12 It's quite clear, isn't it, that what he is regarding as at an end is your relationships with regard the concession and the mining. Nothing to do with the military or anything else, is it? 16 A. That's not the way we read it. 17 Q. That's what the letter says. 18 A. And that's why we asked our colleagues in the military how we should handle it, and they advised us to raise it as part of this letter that we prepared at that time. 20 And this is a complete distortion, isn't it, that you're putting forward to the police of what has happened in Minister Evode's letter? 21 A. No, it's not. It's the truth. 22 Q. It's a long letter, I can't pick up all of it. Can we
18:20 1 Minister Evode's letter, and we can go to it, if you like, was simply declining your mining licence application, wasn't it? 4 A. No, I think in the second paragraph, if you go to it, he says this letter constitutes something like that, cancelling of all relationships between NRD and the Rwanda Government. 8 Q. Well, you didn't have any relationships beyond your ability to mine on the concession, did you? That was the contractual relationships that you had; correct? 11 A. No. No, of course not. 12 Q. You had an expired contract and you had expired licences. 14 A. We'd been referring to we've made endless references to you about that relationship with the Rwandan military. We were with the closing down of our mines we shifted over to terrible work and we shifted over to primarily to working for the Rwandan military and the Rwandan intelligence services. That's what we were asked to do and that's what we were happy to do. 21 Q. Let's look at R-022. 22 A. This is why we knew about all of the smuggling going on of the minerals from Congo. This was part of our work, was understanding how to improve Rwanda's reputation in the international community. They asked for help on	18:22 1 go to the fourth page of the letter, and I'm going to go 2 to item G. 3 MR BRODSKY: I'm sorry, in this same document? 4 MR HILL: Yes. It's the same sorry, I apologise, we're 5 back in C-165. 6 MR BRODSKY: Thank you. 7 MR HILL: Fourth page, item (g) at the bottom. You say: 8 "There are many instances where Minister Evode 9 indirectly threatened NRD and its management and owners. 10 Among these, on (or about) August 14th, 2014, he told 11 NRD business partner, David Bensusan that he 'will 12 nationalise NRD as a help to MSA'" 13 And then you go on: 14 "According to Bensusan, Minister Evode separately 15 told him that he will 'stop NRD from having income, 16 bankrupt them and take the mining licences'" 17 And Mr Bensusan was shocked. 18 Now, none of that is true, is it? 19 A. It's absolutely true. 20 Q. We have Mr Bensusan's evidence on it and he gives 21 evidence, can we go to paragraph 8 of Mr Bensusan's 22 witness statement. He says: 23 "I have been shown a copy of Mr Marshall's letter to 24 the CID dated 30 October 2014" 25 And then he quotes the bit I have just read out, and

It was only Minister Evode who was claiming, along with We don't know. 5 Bailiff Bosco, that Ben was the owner. 5 Q. This letter of yours contains a series of extreme and Q. Let's go to item 4: 6 6 unsubstantiated criminal allegations against Mr Imena, 7 7 "In addition to the evident malfeasance by doesn't it? A. No, these are all factual. 8 Minister Evode, other State officials have apparently 'targeted' us and are victimising NRD. It would appear Q. And do you consider this the kind of behaviour for a 9 10 10 that Minister Evode's harassment of NRD and its realistic professional applicant for a long-term mining 11 management and investors has 'emboldened' others to 11 12 attack NRD and its assets. 12 A. No, we were being dispossessed of everything. They were 13 "Most prominent amongst these is State Court Bailiff 13 taking it from us. They've stripped Nemba from \$800,000 14 Jean Bosco Nsengiyuma, who has committed several crimes 14 worth of property without legal process, with a 15 against NRD but who is apparently 'protected' by the 15 so-called legal process but which was not a valid legal process. There was never an accounting. Nobody ever 16 police and other State authorities." 16 17 17 You then go on and say that: was coming to us to explain where the equipment or "Last Friday we were informed by Metropolitan Police 18 18 minerals went that were stolen or the damages that were 19 authorities that the Court Bailiff, Jean Bosco, has 19 done or how we were going to be compensated. It was as 20 announced to them that he will begin auctioning more NRD 20 if we stopped existing. 21 assets to collect (approximately) \$82,000 in alleged 21 Q. Now, on the Respondent's side we don't accept for 22 22 court judgments. And yet these are the same Court a moment you have any valid claims at all, but if you 23 23 Judgments which he has already executed upon and fully did consider you had claims to have been expropriated or 24 satisfied." 24 harshly treated, in contradiction to the treaty, it's 25 Now, this was a point -- it was not true, was it, to 25 quite clear from this letter that that was all apparent Page 230 Page 232

18:34 1 to you at that point; yes? 2 A. That was 3 Q. You're complaining vociferously about what you describe 4 as your mistreatment, so the claims that you now pursue 5 in this arbitration were all apparent to you at this 6 point, weren't they? 7 A. Were all apparent? 8 Q. Were apparent to you at this point: you were aware of 9 the points that you now advance as claims in this 10 arbitration. We can see it from a letter, because you 11 are 12 A. I'm sorry, please ask the question a different way. 13 Q. You were aware 14 A. Yes. 15 Q you were aware of the matters that you now complain 16 about in this arbitration, because you are complaining 17 about them in this letter. So you were already fully 18 aware of this proposition that you had been expropriated 19 by virtue of being declined licences, you were aware of 20 the suggestion you've been expropriated by or harshly 21 treated by reference to Mr Benzinge's actions and 22 Mr Bosco's actions, it's all there in this letter, isn't 23 it? 24 A. No, I disagree. You know, we wanted to be able to do 25 the right thing. We had a great relationship with the	to everybody. We had assumed that it was not applicable to us because our offices were closed and that as were our concessions. So we were already out of business. We assumed that this letter was a mass mailing and not specifically addressed to us, but we did take the step of setting up a meeting with Minister Biruta who had just taken on his functions roughly a week before, and this was the first day we could speak to him. Evode was not willing to speak to us at this time. We got that meeting two days because of his availability, two days before it was due, but you're right, the mass mailing came out 30 days before the 18th. Q. Go to the next page. You talk about another company being given two years, but by this point you hadn't had a licence, had you, since October 2012, so you have been out of licence for more than two years; correct? A. They were in exactly the same position: they had been out of a licence for two years as well. This is Rutongo I'm referring to. Q. You had been out of licence for two years since your licence had expired in October 2012; yes? A. And they had been the same. Q. And you had not made any application at all in that licence period until this licence application; correct?
18:35 1 Rwanda military, they were very enthusiastic and conveyed to us how much they valued our services. 3 They, in the Rwanda cultural hierarchy, are far higher than anything to do with the Ministry or whatever petty corruption was going on there. They were instructing me to wait and be patient. I was addressing here concrete examples of crimes which had been committed against us, and our disappointment that the police had not taken action in what was clearly theft, no more. 11 Q. Now let's go to C-086. 12 A. Under the colour of law, but theft. 13 Q. Let's go to C-086. This is your next letter to Mr Imena, which contains your appeal, and re-application for a licence. Just underneath the italicised part: 16 "After giving us only 2 days to prepare the so-called 'application', we expected inquiries from your office as well as additional communications and not a termination letter. We take the opportunity of seven days to lodge this appeal against your decision." 17 Now, it's not true, is it, to say you were only given two days; you were given 30 days to make this application? 28 A. Yes, well, you are sort of right. The letter came but it was a form letter that we understood was being sent	18:38 1 A. This is a new argument that started much later. When we submitted the application, it was by far the best, we saw the other applications, we knew 4 Q. That's just not right, is it? We'll come onto Rutongo a little later, but the reality is that Rutongo were in a completely different position and that they had a well advanced licence application which had already been favourably received by the government, entirely different from you who had no licence application on foot until you launched this one in the autumn of 2014. A. You are being casual about your terms. Their licences, by your standard, expired the same time ours did. I don't agree that they expired at all, but the four-year period ended about the same time that ours did. They had two side-by-side applications, Rutongo and Tinco ETI, sorry. Q. Don't worry, we're going to come to it because we have evidence from Mr Imena explaining what happened at Rutongo so I can show you exactly what happened. MR COWLEY: Mr President, I would ask, the question was put to him challenging him to disagree with Rutongo was in a much better situation. Now, when he tried to answer that, cutting him off as if that's not responsive and moving on is not fair. I would suggest the path forward is either to withdraw

We were waiting for the negotiation which was ongoing for Rutongo. Why was Rutongo given the opportunity to negotiate the long-term agreement and instead we have to so-called re-apply. Why didn't Rutongo have to re-apply, or Nyakabingo, or any of the others? Q. Let's go to the next page. A. 10.51	1		T1	. 1 C	E
18:51	1	Α.	I'm making an argument	, you know, for me.	For them to

- 2 say that you now have to go home and you have to leave
- 3 your assets behind, that has a practical monetary result
- 4 for us. So, you know, if that's what they were going to
- 5 do, and that's what I was afraid they were going to do,
- 6 I wanted to alert them that there would be other people
- 7 looking at this, and hopefully somebody would review it
- 8 and at least encourage them to behave properly.
- 9 Q. That was on 1st November. You wrote another letter on
- 10 5th November, which we have at C-171, to
- 11 Minister Biruta. Let's look at that. And you say in
- the first paragraph you've been.
- 13 "... victimised..."
- 14 A. Yes.
- 15 Q. "... by the acts of Minister of State Evode Imena and we
- ask that you intervene..."
- 17 A. Yes.
- 18 Q. Then two paragraphs down you say:
- 19 "... Minister of State for Mining Evode has
- 20 maliciously targeted NRD..."
- 21 A. Yes.
- 22 Q. Then in the next line you refer to "abuse of powers"?
- 23 A. Yes.
- 24 Q. Then you have in this letter a list of accusations
- 25 against Mr Imena.

- 18:54 1 Q. Let's look at item 8.
 - 2 A. Sorry, it also begs the question of why he stopped us
 - 3 from tagging if there was an investment dispute. The
 - 4 tagging goes to the business, not to the individuals.
 - 5 Q. Item 8.
 - 6 A. Why would he stop the company being tagged if it was
 - 7 a person-to-person or a group-to-group dispute? It made
 - 8 no sense to us. That's --
 - 9 Q. It does make sense because you have different people
 - 10 claiming to be in control of the company. Now let's go
 - 11 to item 8. Minister Evode --
 - 12 A. You're misunderstanding the ITRI rules. The ITRI rules
 - are that the tags are issued to companies, companies
 - 14 function -- if there is an internal dispute within the
 - 15 company, that's not an ITRI issue.
 - 16 Q. Let's go to item 8.
 - 17 A. No ITRI participant was ever cancelled for that reason
 - 18 other than us.

21

- 19 Q. Let's go to item 8:
- 20 "Minister Evode demanded a 're-application' from us
 - for all of the NRD mining areas and maliciously violated
- 22 normal Rwanda administrative procedures:
- "(a) Minister Evode refuses to acknowledge ... that
- 24 agreements exist between the Government of Rwanda and
- 25 NRD dating back to 2006 ..."

Page 247

18:53 1 A. Yes.

- 2 Q. And if we look at item 2, for instance, you say:
- 3 "NRD has been out of business since that time. We
- 4 have repeatedly asked Minister Evode to allow NRD to
- 5 resume business but Minister Evode has refused, arguing
- that there is a 'dispute' about the ownership of NRD...
 please note that the so-called 'dispute' is only
- please note that the so-called 'dispute' is onlyrecognised by Minister Evode himself."
- 9 And again, as in other letters, ignoring the fact
- 10 that Mr Benzinge was confronting Mr Imena with an
- arbitration award and a Supreme Court judgment; correct?
- 12 A. Yes, but you're again assuming what that judgment says,
- 13 you're not going into the detail of whether that
- 14 judgment means anything. For the arbitrator to say:
- 15 I don't know what Rod Marshall is doing here, and that
- to be interpreted by Benzinge and only Minister Evode as
- 17 meaning Rod Marshall is no longer a shareholder but
- Benzinge is the sole remaining shareholder, is not
- 19 a fair reading of that judgment. And for me that --
- $20\,$ $\,$ $\,$ I fully agree that these are very emotional terms, but
- 21 we were facing losing everything, and I was very
- 22 emotional, but my point being that there's no way you
- 23 could read that arbitration decision and say: Rod
- 24 Marshall and his investors are not the owners, it's
- 25 Ben Benzinge.

Page 246

- 18:56 1 Do you see that?
 - 2 A. Yes
 - 3 Q. Now, that agreement was no longer extant and you had not
 - 4 met your obligations under it; correct?
 - 5 A. It was fully executory; correct?
 - 6 Q. No, that agreement was defunct because you had failed to
 - 7 meet your obligations under it?
 - 8 A. We had fully performed and we were waiting for the
 - 9 negotiation for the language of the commercially
 - 10 reasonable long-term licence.
 - 11 Q. Item (b) in your complaint to Minister Biruta:
 - "(b) Minister Evode insisted that we 're-apply' for
 - the mining licences on 2-days notice ..."
 - That's simply incorrect, isn't it? He gave you 30
 - days' notice to apply?
 - 16 A. We assumed that it did not apply to us for all the
 - 17 reasons I've already given you. We had two days in
 - which to reply when we were told that yes, you have to
 - reply despite the fact you don't have access to your
 - 20 files --

14

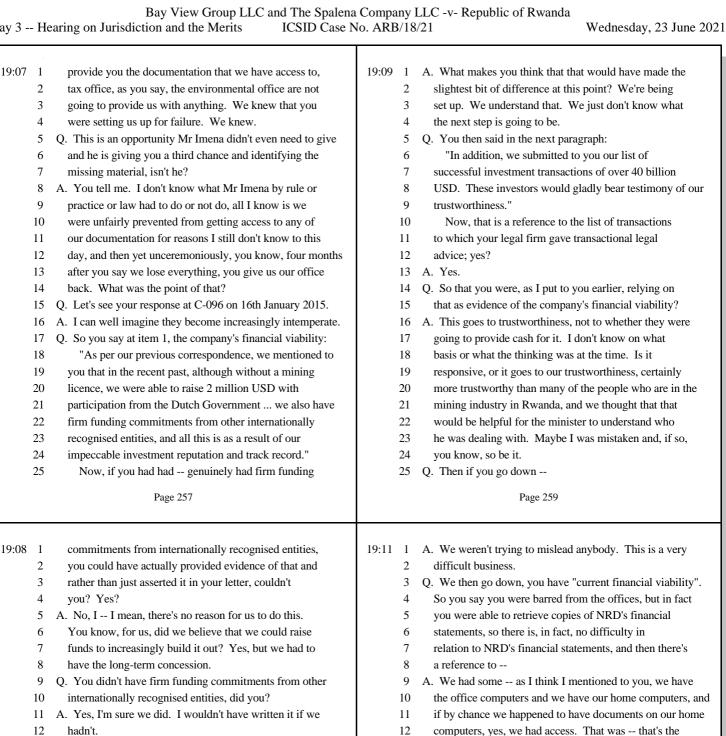

- 21 Q. This is what you were putting forward to another
- 22 minister, incorrectly, as evidence of corruption on the
- 23 part of Minister Evode; correct?
- 24 A. No, I think it's absolutely correct: Minister Evode
- would not meet with us, period.

Juy J 110	earing on Jurisdiction and the Merits TCSID Case N	(0. AKD/10	wednesday, 23 June 202

This is the response from Minister Biruta: "Reference is made to your letter of 5 November 2014 requesting for urgent help in connection with your company being victimised and seeking for my intervention. "Recalling different open dialogues the Ministry had with you where you raised issues concerning your company of re-application process for the expired mining licence; the Ministry advised that you don't personalise issues but rather comply with the mining law requirements. "Therefore, the Ministry takes this opportunity to clarify that (1) Minister of State Evode Imena made decisions on behalf of the Ministry and in his capacity as State representative in charge of mining industry developments in Rwanda; (2) the services you requested cannot be accessed without a valid mining licence; (3) you have gone beyond your boundaries to raise serious baseless allegations against the Minister of State and this is unacceptable. "In this case, you are hereby requested to respect	18:59 1 2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23 24	A. They didn't you were too quick for me. Can you scroll up? Q. I just read the second paragraph. A. I understand. November 12th, 2014. And who is it from? Q. This is from the Ministry of Natural Resources to you. A. I understand, but who, particularly? Is this from Minister Imena? Q. This is from Imena, yes. So the first point he is making is that, contrary to the suggestion in your letter A. We disagreed, it's clear. Q. Now, the next point, if you go over the page, and in fact if FTI could get up that second page, and also the third page of the document, the next page of the document, you can see that the Ministry gave you a list of the missing documents and gave you an express opportunity to improve your application; yes? A. Yes. Q. So, again A. But we didn't see it as a question of improving an application when we were being treated differently from everybody else Q. Again, fair A we could not (overspeaking) the process continue.

"Once again, your company is requested to comply with the mining laws and regulations and go ahead to submit the documents required for mining licence re-application process being mindful of the specified timeframe." And that is an entirely fair response, isn't it, to your (overspeaking)? A. No, that's entirely unfair and ignoring all the issues we were presenting to him. Q. Now can we go to bundle C-087. This is a letter to you on 12 November 2014 from the Ministry in response to your letter to them that we've looked at, and I'm going to read the second paragraph: "As stated in your letters, I would like to clarify that the terms of the above mentioned contract did not give NRD the rights to obtain an automatic and exclusive right for long term mining licences. However, as specified in Articles 4 and 5 of the contract; granting of mining licence is subject to a positive evaluation of the submitted feasibility study, and fulfilment of obligations under the article 2 of this contract." So they were reminding you, correctly, that there was no automatic right to long-term licences; yes?	19:01 1 2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20 21 22 23 24 25	do given you had made a defective application. A. Not fair, not transparent, we were being treated distinctly differently from all other concession holders. Q. Now let's go A. We were the only ones being asked to provide this additional detail as if they had never met us before. Q. Let's look at the letter you wrote two days later in response to this. This is R-214. This is a letter you're now writing to the President of Rwanda. A. Yes, I don't think this letter was sent. This letter was contemporaneous, but I don't think this letter was sent. Q. Well, it may not be, it's not signed. You're suggesting this one was not sent? (overspeaking) wasn't signed? A. (overspeaking) I would have written it was contemporaneous, I'm sure, I do remember writing it, but we were very reluctant on what to write to the Minister so I don't know that I sent this letter. We don't have any document particularly with the President's office we would certainly have gotten a stamp and that makes me think I was just blowing off steam on this letter. Q. In that case I won't take time on it. Let's go to C-088. This is your letter providing further information to Mr Imena.

- Q. It was untrue when you wrote it, wasn't it? 13
- A. No, and it's slanderous for you to say so. 14
- 15 Q. And if you had had firm funding commitments, you would
- 16 have been able to identify them and produce them in
- 17 support of this application, wouldn't you?
- 18 A. I'm sorry, but you're suggesting that we would share
- 19 everything we knew with the minister. At this point we
- 20 could see what was happening.
- 21 Q. And this is nothing to do with what is or is not in your
- 22 Kigali office because if you had had firm funding
- 23 commitments from internationally recognised entities
- 24 there would have been no impediment from the Kigali
- 25 office --

- 23 financial viability question had already -- nobody has
- 24 invested. Nobody. From our point of view we were the
- 25 sole standing investors who remained in the country, and

The reason you didn't apply for a tax clearance is because you would have been unable to get one because you owed tax? A. Now you are accusing us of lying. No, my assistant Zuzana Mruskovicova, our CFO, went to the tax office and, as I understand it, that's the explanation for why they would not give her a tax clearance. You can ask her directly, but I'm sure she's not lying. I wish you could find a different phrase of "You were lying", because it's really distracting. Q. Could you go to bundle C-179. This is an email from you we looked at earlier. It's the email we looked at some time ago to Mr Ehlers dealing with the financial position. Can you just scroll down a bit, FTI. Stop there. And amongst the other points you make, you say do you see, in the bottom of the big paragraph: "And this does not contemplate the tax obligations identified by PwC for withholding on ex-pats." A. A. Please, I'm sorry, again I'm going to repeat myself: this is a question for a new investor who has just appeared, they don't know anything about him, please give us some proof of something so that we know or have some idea. Not somebody who has been in the country for eight years, invested \$20 million, or whatever you claim the disputed amount is. This is for a new person that they don't know anything about. So for them to say: oh, well your \$20 million doesn't count so we need to see something else. We interpreted this to mean: no, we've proven our financial viability. If they're asking for additional financial viability, that would make us different from these guys, but that's not what's		2 3 4 5 6 7 8 9 10 11 12 13 14 15 16 17 18 19 20	mining 'concession'". And that is a fair summary, isn't it, of the material you submitted? A. No, I may I repeat my former points: we didn't have our office, we didn't have access to any of that information. This is for a new mining concession applicant and this is the more detailed kind of assessment that you would have expected from him. They knew what we did, we met with them frequently prior to this so-called dispute period, and this was not really applicable, but if it was applicable then they needed to give us our office so that we could respond. Q. Let's go to R-024. This is Dr Biryabarema's review from February 2015, and if you go to page 2, you can see that he makes he deals also with NRD Rwanda Limited financial statements, and essentially he makes the same points as the previous reviewing team but adds his own in relation to the financial statements, you can see at 2.2.1. So you can see he conducts an analysis of what

15.28 1	the request of the Rwanda Revenue Authority; do you see	
3	that? Second line.	
4	A. I had understood that the process from the Rwanda	
5	Revenue Authority is if they have some claim against you	
6	they give you notice. So, you know, until this process,	
7	I was never aware that that was even possible.	
	Q. You knew, didn't you, that you had unpaid debts to the	
8 9	Revenue and, indeed, they were seizing your assets; yes?	
10	A. Definitely not. 100%. Not 99%, 100%. We had been told	
11	that all our accounts were frozen until such time	
12	a determination had been made about who was the owner.	
13	That's why we also couldn't get a tax certificate.	
14	Q. And, as I said earlier, the reason you couldn't get the	
15	tax certificate is because you had unpaid debts and this	
16	is just another example of how that it so.	
17	A. I put it to you that in fact what you've been doing all	
18	day long is trying to say what I say is the truth and	
19	you say is a lie, and it's simply unreasonable. It's,	
20	in fact, slanderous.	
21	Q. Let's go to another document. We're going to go to the	
22	RDB minute at C-101.	
23	A. Certainly there was never any notice to us. If there	
24	was ever a notice from the RRA to anybody, it didn't	
25	come to us.
